NOTICE REGARDING UNIVERSITY REALIGNMENT

Due to the upcoming realignment of IPFW (effective July 1, 2018), all nursing students admitted before the effective date of the alignment will be admitted as Purdue University students. All Purdue University nursing students must graduate by May 2021. Students admitted after the effective date (for Fall 2018 and after) will be admitted to the Indiana University School of Nursing.

INTRODUCTION

The information provided in this manual supplements the information in the Undergraduate Bulletin, IPFW Student Handbook, and IPFW Web site and provides additional information specific to the College of Health and Human Services and the Department of Nursing.

Changes in the program will be reflected in revised editions of any of the enclosed documents, which will be made available to students during academic advising, in nursing classes, at Department of Nursing website, and/or transmitted electronically to students’ university email accounts.

Participation

Nursing students have the opportunity to impact decisions within nursing and on the campus by committee participation. Committee openings are announced in classes and posted on the nursing website. The Undergraduate Curriculum Committee is an example of one committee that invites and names a student representative and an alternate.

Decisions in the Undergraduate Curriculum Committee directly affect students and the educational requirements concerning course structure, course sequencing, and clinical options. For additional information, speak with a nursing professor.

Changes in Program

Curriculum and/or program requirements can change while students are enrolled in any particular program of study. Such changes may be due to state licensure, national certification, or by some other regulatory body that then must be reflected in the curriculum so that students can meet the minimum requirements to qualify for licensure and/or be prepared for certification by various accrediting and certifying bodies. The Department will make every effort to notify students that such changes have occurred and how such changes may influence their program progression and/or timely completion.
Technical Standards for Admission and Retention of Students

The College of Health and Human Services (CHHS) professional program faculty has specified the following non-academic criteria (technical standards) that all applicants/students are expected to meet. These standards include the following five categories and may vary by degree program.

1. **Observation**: The applicant/student must be able to participate actively in all demonstrations, laboratory exercises, and clinical experiences in the professional program component of the degree and to assess and comprehend the condition of all persons assigned to him or her for examination, diagnosis, and treatment. Such observation and information usually require the functional use of visual, auditory, and somatic sensations.

2. **Communication**: The applicant/student must be able to communicate effectively and sensitively with persons in order to elicit information; describe changes in mood, activity and posture; assess non-verbal communications; and be able to effectively and efficiently receive from and transmit information to persons, fellow students, faculty and staff, and all members of the health care team. Communication skills include listening, speaking, reading, and writing as well as the observation skills described above.

3. **Motor**: The applicant/student must have sufficient motor function to elicit information from persons by appropriate diagnostic or therapeutic maneuvers, be able to perform basic tests, possess all skills necessary to carry out diagnostic or therapeutic procedures, be able to interpret appropriate examinations and procedures, and be able to execute motor movements reasonably required to provide general care and emergency treatment to persons.

4. **Intellectual/Conceptual, Integrative, and Quantitative Abilities**: The applicant/student must be able to measure, calculate reason, analyze, evaluate, and synthesize. Problem solving, the critical skill demanded of allied health practitioners, requires all of these intellectual abilities. In addition the applicant/student must be able to comprehend three-dimensional relationships and understand the spatial relationships of structures. The applicant/student must have the capacity to perform these problem-solving skills in a timely fashion.

5. **Behavioral and Social Attributes**: The applicant/student must possess the emotional health required for full utilization of his or her intellectual abilities; the exercise of good judgment; the prompt completion of all responsibilities attendant to care of persons; and the development of mature, sensitive, and effective relationships with persons and others. Applicants must be able to tolerate taxing workloads, function effectively under stress, adapt to changing environments, display flexibility, and learn to function in the face of uncertainties inherent in clinical problems of many persons. Compassion, integrity, concern for others, commitment, and motivation are personal qualities that each applicant/student should possess.
Disabilities Statement

Students with a disability should contact the Director of Services for Students with Disabilities to request assistance if needed. The office is located in Room 113 of the Walb Student Union, telephone number (260) 481-6658. For more information, visit the website for IPFW Services for Students with Disabilities (SSD).

Equal Opportunity Statement

IPFW is strongly committed to providing all students and employees with fair and equal treatment in a diverse and inclusive environment free of discrimination and harassment. The Office of Institutional Equity provides leadership to the IPFW community in upholding those practices and policies consistent with this commitment and with state and federal laws regarding equal access, equal employment, and educational opportunity for all persons without regard to race, religion, color, sex, age, national origin or ancestry, marital status, parental status, sexual orientation, gender identity, gender expression, genetic information, disability, or veteran status. The Office of Institutional Equity provides assistance to faculty, staff, and students regarding equal opportunity practices and policies. The office is located in Room 252 in Kettler Hall, phone (260) 481-6107.
SECTION I – STATEMENTS, PHILOSOPHY, FOUNDATIONS, FRAMEWORK, OUTCOMES

IPFW Mission, Vision, and Values Statements

Mission
Indiana University-Purdue University Fort Wayne (IPFW) is a comprehensive university that provides local access to globally recognized baccalaureate and graduate programs that drive the intellectual, social, economic, and cultural advancement of our students and our region.

Vision
IPFW will be the university of choice for the citizens of northeast Indiana and beyond. It will be recognized for a transformative learning environment characterized by intensive mentoring, excellence in faculty scholarship and knowledge creation, integration of life and work experiences, and community engagement. IPFW will be known for exceptional retention, persistence, graduation rates, respected signature programs, and graduates prepared to improve the quality of life in their communities as well as compete locally, regionally, and globally.

Values
- Access to affordable and high-quality programs and services.
- The integrity, significance, and value of the Indiana University and Purdue University degrees.
- An environment of open intellectual inquiry, mutual respect, shared governance, and civility.
- An environment that enhances learning by recognizing the inherent worth of all individuals and celebrating differences of culture, background, and experience among all individuals and groups.
- The highest ethical standards of equity, fairness, transparency, and academic integrity.
- A multifaceted and mutually beneficial collaboration with Fort Wayne and the greater northeast Indiana region.

College of Health and Human Services Mission Statement

The mission of the College of Health and Human Services is to provide the highest quality education to future and current health care and hospitality practitioners by providing a learning environment that supports the development of culturally competent caring, compassionate, and accountable professionals. Our undergraduate and graduate programs prepare graduates that are dedicated to the autonomy, dignity, and diversity of the people they serve.

The College is committed to excellence in teaching, service, and scholarship and to the elimination of health disparities in our community. Our graduates will value life-long learning and have a professional work ethic based on professional standards and best practices. The College of Health and Human Services specifically identifies and addresses the ever-changing
Department of Nursing Mission, Vision, and Values Statements

Mission
The mission of the IPFW Department of Nursing is to improve human health and quality of life through nursing practice, scholarship, and service.

Vision
The IPFW Department of Nursing will be recognized for its distinctive programs of excellence in undergraduate and graduate nursing.

Values
IPFW embraces the values of integrity, caring, altruism, and maximizing human potential. To realize these values, the department embraces equity, diversity and inclusiveness, scholarship, engagement and application, community partnership, leadership, and stewardship.

Philosophy

The philosophy of the Department of Nursing is grounded in an awareness of the rapidly changing health care environment. Knowing this reality, students are prepared for practice using a perspective of on-going inquiry strategies that are based in evidence. Baccalaureate students are prepared as generalist nurses to provide patient-centered care. Master’s students are prepared in specialty practice (Family Nurse Practitioner, Adult Gerontology Primary Care Nurse Practitioner, and Nurse Educator) to provide patient-centered care. The nursing faculty believe that all individuals have inherent worth and dignity, are part of a larger social-cultural network, and are continually developing and adapting.

Learning is a life-long process which enables individuals to think critically in the appraisal and application of knowledge, skills, and values as these relate to self, others, and the environment. The faculty is responsible for creating a learning environment that facilitates the acquisition of the necessary knowledge and skills for professional nursing practice. Individuals must be actively involved in, and responsible for, their own learning. Through formal education and experiential learning, nurses can advance to professional practitioners at the undergraduate and graduate levels.

Health or optimum adaptation is achieved through equilibrium of physical, psychological, social, cultural, developmental, and spiritual components. Perceptions of health and health goals are determined within a socio-cultural context and are influenced by knowledge, experiences, and values.

Nursing is an interpersonal process through which the nurse influences people toward understanding, attaining, maintaining, or regaining optimum health. Holistic and compassionate
nursing practice incorporates knowledge and theory from nursing science, physical sciences, psychological and social sciences, humanities, and the arts to understand and address human needs. Nurses collaborate with other health care providers to promote optimal well-being.

Nurses must be knowledgeable about contemporary practice issues in assuming an active leadership role in promoting health and influencing delivery of care. Nursing faculty value professional growth and participate in opportunities that contribute service to the profession, university, students, and the community through academic study, scholarly work, and political action.

Conceptual Framework

The conceptual framework for the Department of Nursing at IPFW is the foundation of the curriculum. The goal of the nursing program is to prepare nurses who have the knowledge, skills, and judgment to provide competent care. Nurses must be prepared to work in complex, rapidly changing environments and thus commit to life-long learning relevant to the profession. The nursing metaparadigm concepts described by nursing theorists are human beings, environment, nursing, and health. These metaparadigms form the structure of the curriculum and are the cornerstones for understanding the practice of nursing. Within this structure, faculty members prepare students to develop clinical moral reasoning skills to “think like a nurse” (Tanner, 2006, p. 204). A basic sense of what is good, right, and ethical is fundamental to nursing practice (ANA, 2010).

The following definitions of the metaparadigm concepts form the basis for delivery of nursing care and teaching nursing students. Human beings as a concept refers to individuals within a culture, families, communities, and other groups. Environment can be viewed from a system perspective as a concept that refers to human beings continually interacting with energy both internally and externally. The environment refers to the local, national, and worldwide settings in which nursing occurs. The environment consists of cultural, social, political, and economic conditions. Health refers to the interaction of holistic human processes of living and dying. Nursing is defined as actions taken by nurses on behalf of or in conjunction with human beings and the goals and outcomes of these actions. As such, nursing is a mutual process between human beings and nurses in whatever environment and state of health that exist (Fawcett, 2005).

The education of nursing students is a dynamic and complex student-centered process that embraces the art and science of nursing. This student-centered process includes teaching ways of developing knowledge that reflects a process and outcome-driven, evidence-based practice framework. This focus prepares a nurse who is able to manage patient care delivery today and in the future. Consequently, faculty create a learning environment that emphasizes nurses maintaining a life-long passion and enthusiasm as a nurse as described by Benner, Sutphen, Leonard, and Day (2010).

Faculty members are grounded by value-based principles of nursing education including nursing knowledge, nursing skills, nursing values, nursing meanings, and nursing experience as described by Webber (2002). Furthermore, faculty members embody and teach the ethics of
nursing, altruism, autonomy, human dignity, integrity, and social justice as specified by the American Association of the Colleges of Nursing (AACN, 1998) and the American Nurses Association (ANA) (2010).

Success in nursing education occurs when students are engaged in learning value-based practice that integrates moral reasoning for knowing what is right in the delivery of care. The result of moral reasoning is an understanding of what is right and good in the care of human beings that is reflected in nursing actions. Learning and teaching in the nursing education environment involves understanding students’ learning preferences, using updated technology and teaching strategies, and providing contextualized learning experiences (Benner, et al, 2010).

Scholarship and professionalism are integrated into the curriculum to promote stewardship of the nursing discipline. Nursing scholarship requires a grounding in literacy and information technology where students learn to access and make sense of information and data. Students grow in applying the information appropriately to the situation with evaluating the efficacy of the process and the impact of nursing interventions. Professionalism evolves from nursing scholarship that is focused on nursing theory, research, and evidence-based practice. Students' growth toward professionalism and stewardship is facilitated by faculty members' expertise in nursing research, nursing theory, and application of nursing theory in practice. Students learn to apply current theoretical knowledge of the profession by identifying gaps in nursing phenomena, constructing new ideas, and developing relationships between practice, theory, and research.

The art and science of nursing is continually evolving in response to rapidly changing, complex health care environments. It is essential for students to understand the boundaries of practice and be prepared for the ever-changing innovations of health care. The focus of nursing has a longstanding tradition of serving human beings. The graduates of the program are prepared with knowledge and skills to contribute to quality improvement, collaborate with interdisciplinary team members, and deliver safe and effective person-centered care. Thus, these graduates contribute to a growing body of knowledge regarding nursing care and uphold the nursing profession's contract with society that nursing care is safe, effective, and of utmost quality care as described by the ANA (2010).

Level and Program Outcome Objectives

The baccalaureate nursing program prepares graduates to attain the outcomes defined in the table below:

### Program Outcomes by Academic Year

<table>
<thead>
<tr>
<th>Outcome Category</th>
<th>Freshman</th>
<th>Sophomore</th>
<th>Junior</th>
<th>Senior/B.S.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Professionalism</td>
<td>Identify professional and ethical behaviors which are necessary for personal awareness and accountability.</td>
<td>Demonstrate professional growth which reflects awareness, assertiveness, and accountability.</td>
<td>Apply professional and ethical behaviors in practice through accountability, assertiveness, and advocacy.</td>
<td>Validate professionalism through awareness, assertiveness, accountability, and advocacy.</td>
</tr>
<tr>
<td>Leadership/Interdisciplinary Teamwork</td>
<td>Develop beginning leadership skills for the delivery of safe and effective care.</td>
<td>Prioritize the delivery of safe and effective care for patients with various levels of health care needs.</td>
<td>Demonstrate beginning leadership skills as a team member in the delivery of safe and effective patient care.</td>
<td>Collaborate with the interdisciplinary team in the delivery of patient-centered care in complex health care environments.</td>
</tr>
<tr>
<td>Critical Thinking/ Clinical Reasoning</td>
<td>Demonstrate beginning critical thinking skills in the delivery of nursing care.</td>
<td>Incorporate critical thinking in the application of the nursing process as the basis of nursing practice.</td>
<td>Integrate critical thinking skills in addressing complex health-related issues across the lifespan.</td>
<td>Formulate nursing practice decisions, using critical thinking skills and evolving knowledge from nursing science, the biological and behavioral sciences, and the arts and humanities.</td>
</tr>
<tr>
<td>--------------------------------------</td>
<td>--------------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Evidenced-Based Practice</td>
<td>Examine principles of evidence-based practice in the delivery of patient-centered care to obtain optimal health outcomes.</td>
<td>Apply principles of evidence-based practice in delivery of culturally sensitive patient-centered care.</td>
<td>Integrate evidence-based practice in the delivery of safe and effective care to vulnerable populations.</td>
<td>Evaluate the effectiveness of health outcomes through the application of theory and evidence-based practice.</td>
</tr>
<tr>
<td>Communication</td>
<td>Demonstrate cultural awareness and therapeutic communication skills in health care settings.</td>
<td>Apply appropriate communication skills in the delivery of holistic health care.</td>
<td>Adapt communication to address the needs of vulnerable and diverse populations.</td>
<td>Employ effective communication skills in partnering with individuals, families, communities, and interprofessional health care teams to design and provide safe, evidence-based, patient-centered care.</td>
</tr>
<tr>
<td>Informatics</td>
<td>Apply basic computer skills and information literacy in the delivery of health care.</td>
<td>Utilize clinical information systems to gather information that guides holistic nursing care.</td>
<td>Utilize instructional technology and information literacy skills to identify best practices to support evidence-based practice.</td>
<td>Leverage technology to synthesize information and knowledge from data to improve health care.</td>
</tr>
</tbody>
</table>

Rev. 10/11; 5/14; 7/15
SECTION II – ADMISSION, ACCEPTANCE, REGISTRATION

Bachelor of Science Program Information

IPFW offers two programs which result in a Bachelor of Science in Nursing:

- Traditional Bachelor of Science with a Major in Nursing (4-year program)
- Streamlined RN to B.S. completion with a Major in Nursing (currently closed to admissions)

As a graduate of an IPFW pre-licensure nursing program, students will have attained the knowledge and skills needed to provide quality health care and the academic credentials required to take the National Council Licensure Examination (NCLEX-RN). Upon successful completion of this examination, the student will be eligible to practice as a registered nurse. The baccalaureate degree graduate is prepared at the professional level to function in a leadership role with other team members in varied and complex health care settings.

The Streamlined RN to B.S. completion with a Major in Nursing curriculum is uniquely designed for associate degree or diploma registered nurses who wish to earn a bachelor’s degree. The provides requisite credits and the same learning outcomes as the traditional program for students seeking their Bachelor of Science with a Major in Nursing. Courses are offered online which facilitate greater availability and accessibility for students. For information regarding the RN to B.S. Program refer to the RN to B.S. Student Information Manual.

Eligibility for Licensure

Upon successful completion of the B.S. program, the graduate is eligible for licensure as a registered nurse (RN). Any person who applies for examination and registration as a registered nurse in Indiana shall submit to the Health Professions Bureau of the Indiana State Board of Nurses written evidence, verified by oath, that he/she meets the following conditions:

- Has completed an approved high school course of study or equivalent as approved by the appropriate educational agency
- Has completed the prescribed curriculum in a state-accredited school of nursing and holds a diploma or certificate therefrom
- Has not been convicted of any act that would constitute grounds for disciplinary sanction under the state board rules and regulations or of any felony that has direct bearing on the individual's ability to practice competently

Pre-Nursing

Admission to the nursing program from pre-nursing is limited. The Bachelor of Science program is competitive, and the Department of Nursing may find it necessary to deny admission to a qualified applicant because of enrollment limits in the professional program. Depending on the number of qualified applicants, meeting minimum criteria for admission, including grade point averages, may not be sufficient to be accepted into the program of study. Department of Nursing does not keep a waiting list from semester to semester. A new application is required for each application deadline date. Pre-nursing applicants must meet the following requirements:
• Be admitted to IPFW as a degree-seeking student (see Part 7, IPFW Undergraduate Bulletin).

• Complete 33 credit hours of pre-nursing curriculum with a grade of C- or better in each course. Students may retake any course one time, and the most recent grade earned will be incorporated into the GPA calculations. To get the course repeat benefit, students must retake the same course at IPFW or another Purdue campus that uses the same course name and number. The pre-nursing curriculum is as follows:
  
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 12000</td>
<td>Elementary Psychology</td>
</tr>
<tr>
<td>ENG W131</td>
<td>Reading, Writing, and Inquiry I</td>

<td>Principles of Sociology or ANTH E105 Culture and Society</td>
</tr>
</tbody>
</table>

• Students must have completed courses in biology and pharmacology within five years of application.

• Students must have completed courses in chemistry and nutrition within 10 years of application.

• Students must have a minimum IPFW grade-point average (GPA) of 3.0 on a 4.0 scale in the pre-nursing curriculum. The GPA is calculated on only the 33 hours of pre-nursing curriculum taken at IPFW or at other Purdue University or Indiana University campuses. Applicants are ranked based on this GPA. This GPA does not include transfer courses.

• A minimum GPA does not guarantee admission. The actual GPA necessary for admission varies with the GPA distribution of the applicant pool and the number of available seats for admission.

• Applicants are required to take the TEAS (Test of Essential Academic Skills) preadmission examination and earn at least a “Proficient” level in the overall score. The examination is administered on specific dates and times. Applicants pay a testing fee.

• Applicants will submit a 250- to 300-word essay. The essay must contain three (3) typed paragraphs, one for each topic are below. Grammar, sentence structure, and spelling will be considered.
  
  o Describe what motivates you to be a nurse
  o State life-long professional goals
  o Finish this statement: “In ten years as a Registered Nurse, I see myself . . .”

• All transfer grades will be reviewed and evaluated in the admission process.

• First priority consideration for program admission will be given to students who have completed 15 or more of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. Six credit hours of a required science must be taken at a Purdue University or Indiana University campus for admission consideration.

• If additional seats are available, the second priority is given to students who have completed less than 15 of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. Six credit hours of required science must be taken at a Purdue University or Indiana University campus for admission consideration.
• If additional seats are available, the third priority is given to students who have none of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. In this case, the transfer GPA of the pre-nursing curriculum will be used for admission.
• Should a tie in applicants’ GPAs occur, the essays will determine rank ordering.
• Students will apply to enter the B.S. degree program.
• Students are admitted for a specific semester and are expected to enter that semester. Students who do not enter that semester must reapply for competitive program admission. Students who decline admission two times will no longer be considered.
• Students must apply by May 1 (fall semester) or December 1 (spring semester).
• Students who have not been accepted but who are qualified may reapply for admission.
• Credits in developmental courses (COAS W111, ENG W129, or MA 12401) do not apply toward either the pre-nursing or nursing curriculum.

Transfer Students from Other Nursing Programs
Transfer students from other NLNAC, ACEN, or CCNE accredited RN nursing programs may be considered for admission based on availability of space. Students must have completed 24 credit hours with a GPA of 3.5 (4.0 scale) or higher. Applicants are required to take a preadmission examination. The examination is administered on specific dates and times. Applicants pay a testing fee.

LPNs from ACEN (NLNAC) Accredited Schools
LPNs holding a current LPN license have the opportunity to validate course credit for NUR 11500 Nursing I: Intro to Nursing and NUR 13000 Essentials of Clinical Skills during the semester of completion of the 33 pre-nursing credit hours under the following conditions:
• Deadline for test out for Fall semester is May 1
• Deadline for test out for Spring semester is November 1
• Graduate from an ACEN (NLNAC) accredited LPN program.
• Must have successfully passed or currently be taking PCTX 20100 Introductory Pharmacology

If LPN successfully tests out of NUR 11500 and NUR 13000, conditional upon pre-nursing GPA of at least 2.8, the student proceeds the next semester to NUR 10300 Professional Seminar I: Communications, Ethics, and Diversity and NUR 20200 Nursing II: Medical-Surgical Nursing of Adults and/or NUR 24100 Psychiatric Mental Health Nursing B.

If LPN does not successfully test out of NUR 11500 and NUR 13000, he/she can apply by the July 1 or December 1 application deadline and must fulfill all application requirements.

Registration
Prior to registering for classes the first time, LPN students must meet with the Director of the Undergraduate Programs to develop an initial plan of study. Each year thereafter, students will
meet with an academic advisor to review the plan of study. See Plan of Study in Section III for more information.

Using myIPFW, each student is encouraged to register early to ensure course availability. Use schedule of classes to search and register for a class.

A student having difficulty or needing approval to register for classes should contact a Coordinator of Advising at (260) 481-6189 or (260) 481-6282. Help is also available through the Office of the Registrar.

Establishment of Credit for Nursing Courses by Examination

As approved by the faculty, the policy for the establishment of credit for nursing courses by examination is as follows:

1. Courses available for challenge are determined by the Undergraduate Curriculum Committee of the Department of Nursing.
2. The undergraduate nursing programs require that the student meet one of the following qualifications:
   a. Provide documentation of current Indiana licensure as a Licensed Practical Nurse (LPN) with experience in the nursing area which correlates to the course which the student is requesting to challenge (i.e., Medical-Surgical, Infant/Child, Psychiatric).
   b. Provide documentation of a military occupational status rating comparable to LPN education, including the following:
      - Army: MOS rating of 91C20
      - Navy: Hospital corpsman
      - Air Force: Rating 902XO (Medical Service Specialist). The “X” will be substituted with a number to indicate the level of training but the basic training is equivalent to LPN education.
      - Marine Corp: None (The Marine Corp use the Navy for medical needs.)
   c. Since LPN education does not include Psychiatric Nursing, students will be considered on an individual basis for eligibility for the NUR 24100 challenge exam. The student would be expected to show prior educational preparation in psychology or a related field in addition to documentation of clinical experience in a psychiatric clinical setting working with a variety of clients with psychiatric disorders.
   d. The criteria for satisfactory clinical experience in the applicable nursing area will be the decision of the course faculty based on the documentation provided and as verified by the faculty. Verification may include letters and/or verbal assessment of clinical competency by former and/or current employment supervisors.
3. To apply for credit by examination, a student must meet the following University and Department of Nursing requirements:
   a. Current enrollment in and admission to the University and the Nursing program
   b. Has received no grade in the course other than a “W” or “NC” (auditor/no credit).
   c. Is not currently taking the course.
d. Have satisfied all prerequisites of the course prior to requesting eligibility for taking a
challenge exam. Students wishing to challenge second-year nursing courses must have
completed all first-year courses prior to taking the challenge exam for any second-year
nursing course.
e. Have no prior Ds or Fs in a required nursing course.

4. Written examinations may be taken once and must be successfully passed before attempting
the clinical validation.
5. Written examinations may not be reviewed by the student once completed and turned in.
6. Failure of the written exam will necessitate taking the didactic and corresponding clinical
course.
7. Clinical validation may be attempted only once.
8. RN to B.S. students who are certified by recognized nursing organizations may seek credit
toward a nursing elective. Certain certificates may be used as credit for required nursing
courses.

Requesting Establishment of Credit by Examination for Nursing Courses

Below is the procedure for requesting credit for nursing courses:
1. Student must meet University and department eligibility criteria for taking a nursing course
challenge exam.
2. The student should schedule an appointment with the appropriate course faculty to review
eligibility and discuss documentation and verification procedure.
3. Once the student has been declared eligible by the faculty, the student should schedule a time
to take the written challenge exam, and, if eligible, the clinical validation.
4. Challenge exams should be scheduled during the regular fall or spring semesters as no
opportunities for clinical validation are available between May and mid-August.
5. Students who do not take the challenge exam at the agreed upon time may forfeit their right
to take or reschedule the exam.

Transfer Courses

It is the student’s responsibility to have sent to the IPFW Admissions Office an official transcript
of any course that may be used to fulfill requirements in the nursing program. All transfer
courses must be completed prior to the beginning of the last semester in the program. This
allows the credit from the transfer course to be added to the official Purdue transcript. The
student must also submit the transcript of the course to the secretary in the Department of
Nursing.

The grade earned in a transfer course will not be calculated in the grade index. It will appear on
the transcript as credit, not a grade. A grade of C or above must be earned for the course credit
to transfer.

It is the student’s responsibility to discuss with a nursing advisor whether a course will be
accepted to fulfill the IPFW nursing curriculum requirement.
Financial Aid and Scholarships

IPFW attempts to meet the demonstrated financial needs of all applicants using grants, scholarships, loans, and part-time university employment. Information regarding financial aid can be found on the Paying for College webpage. The Office of Financial Aid is located in Kettler Hall Room 102 and can be contacted by emailing finaid@ipfw.edu or by phone at (260) 481-6820.

Scholarships become available throughout the year. Each student is notified via the nursing listserv. It is the student’s responsibility to monitor email and complete any requirements for scholarships.
SECTION III – CURRICULA

Plan of Study

A student pursuing a Bachelor of Science with a Major in Nursing should have a preliminary plan of study prior to the end of the first session/semester. The plan of study identifies a list of specific courses and all other requirements of the degree. The formal plan of study is approved by the advisory committee, including the Chair of the Department of Nursing.

The Plans of Study can be found on the Department of Nursing website.

Examinations and Quizzes

Each student is expected to be present for examinations and quizzes. If student must be absent for an exam/quiz period due to extraordinary circumstances, he/she must notify the course faculty member before the exam/quiz to make arrangements to take the test. University examination schedules will not be altered except on an individual basis for extreme extenuating circumstances.

Time Limitations

Due to the IPFW realignment, nursing students admitted as Purdue University students must graduate by May 2021.

If a student is out of the program for two consecutive semesters or more, the student must demonstrate theory and skill competencies in all previously completed clinical nursing courses by successfully passing proctored and non proctored ATI exams, NUR 13000 Essential Clinical Skills, and selected simulations that demonstrate competency. Students may retake the ATI exam per department policy.

Undergraduate Grading Scale

The following grading scale is followed for all undergraduate nursing courses:

- 92% – 100%  A
- 84% – 91%    B
- 75% – 83%    C
- 66% – 74%    D
- 65% & Below  F
Grade Definitions

A  Reflects superior performance far in excess of minimum academic requirements. The student consistently demonstrates superior abilities and a mastery of all phases of the course. The student receiving this grade would be expected to be an outstanding performer in his/her professional field. This grade should be awarded for truly exceptional performance.

B  Reflects performance consistently and significantly exceeding the course requirements. The student has demonstrated initiative and has performed very well in the course. The student frequently exceeds expectations that a student receiving this grade would perform very well in his/her professional field.

C  Performance is satisfactory, acceptable, meets, and occasionally exceeds the course requirements. This grade is a performance standard expected of students. The student has performed the basic requirements of the course and has a good understanding of the material covered. It is expected that a significant number of students would receive this grade. Upon graduation the student would perform well in his/her professional field.

D  Performance is below the standard of the course but not failing. Improvement would be needed in subsequent courses for graduation. The student has a fair grade and has done minimum passing work. It is expected that the student would have difficulty performing appropriately in his/her professional field. In required nursing courses this is not a passing grade.

F  Performance is deficient and must be improved substantially to meet the satisfactory grade requirements. The student has not demonstrated the ability to proceed with the academic program. This student needs additional counseling and help for continued effort in the program or redirection to another academic area. Not a passing grade in the University.

To pass a nursing course, the student must achieve a score of 75% on exams without rounding. Example: a grade of 74.9% will be recorded as 74%. The restriction of 75% on examinations removed from two upper division nursing courses (Statistics and Data Management in Healthcare and Research in Healthcare) in addition to previous policy that states: Restriction of 75% on examinations removed from five upper division nursing courses: Introduction Healthcare Informatics, nursing elective, Professional Seminar II, Professional Seminar III, Transcultural Healthcare.

Degree Requirement

Students are required to complete the degree under the requirements specified in the IPFW Undergraduate Bulletin Requirements for Degrees and College of Health and Human Services Academic Regulations in effect at the time of admission to nursing.

Licensure Requirement

Students must have a 2.0 GPA to be eligible for graduation and to take the National Council Licensure Examination (NCLEX-RN). Purdue University is on a 4.0 scale.
Computer skills

To be successful in traditional or online courses, students should be able to:

- Navigate Blackboard and maneuver within that environment
- Access, send, and receive email
- Send, receive, save, and open an email with an attachment
- Locate an internet website
- Use an internet search engine (such as Google) to research information
- Create, save, and print text documents in Microsoft Word
- Save, locate, name, and rename files on the computer hard drive or jump drive

Handheld Digital Device

A handheld digital device is required for the nursing program. The handheld digital device can be an iPad, iPod, iPhone, tablet, or Blackberry.

ATI Testing Information

The Assessment Technologies Institute (ATI) offers an Assessment-Driven Review (ADR) program designed to increase student pass rates on the nursing licensing exam and lower program attrition. IPFW uses ATI as a comprehensive program from the sophomore year to graduation. Used as a comprehensive program, ATI resources will help students prepare more efficiently, as well as increase confidence and familiarity with content. Below is information regarding ATI testing. Additional information can be found on the Department of Nursing website at the following links:

   [NCLEX and ATI Testing](#)
   [Frequently Asked Question - Fees and Expenses](#)

How the ATI Proctored Test Counts in the Course Grade
The faculty of each course will determine the specific grade distribution and application of the ATI proctored exams. Proctored exams are to be used in courses where they are available.

ATI Testing for Competence in Major Nursing Courses
Students in the traditional B.S. program will be required to take ATI Content Mastery and specific generated assessments throughout the curriculum. Students may also be assigned non-proctored assessments and ATI learning activities at the discretion of the faculty. Proctored testing will take place on campus as arranged by each course faculty. **Proctored ATI exams must be taken during usually scheduled classroom time and may not be used for or taken during regularly scheduled clinical time. Proctored ATI exams will not be given during the week of finals or during dead week.**

Definition of Proficiency Levels
Expert professors from around the USA have agreed upon the ATI scores on each Content Mastery Test that relate to different levels of proficiency. Since these exams are fairly difficult,
the use of a pure percent score would not work with the IPFW grade scale. At IPFW, the proficiency level is a way to assign a course grade for test performance. The goal at IPFW is for students to achieve a proficiency level of 2 or 3. Remember each course has proctored ATI exams with different proficiency scores that designate Level 2. Listed below are descriptions of what each proficiency level means and how grades will be assigned for the ATI tests:

<table>
<thead>
<tr>
<th>ATI Proficiency Level</th>
<th>Contribution to Student Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students reaching proficiency Level 3</td>
<td>No remediation necessary. Indicates student is likely to succeed on NCLEX-RN® in content area. Students are encouraged to engage in continuous focused review to maintain and improve their knowledge of this content.</td>
</tr>
<tr>
<td>Students reaching Proficiency Level 2</td>
<td>No remediation necessary. Indicates student is fairly certain to meet NCLEX-RN® standards in content area. Students are encouraged to engage in continuous focused review in order to improve their knowledge of this content.</td>
</tr>
<tr>
<td>Students reaching Proficiency Level 1</td>
<td>Indicates student is likely to just meet NCLEX-RN® standards in this content area. Students are encouraged to develop and complete a rigorous plan of focused review in order to achieve a firmer grasp of this content. Remediation is required. At a minimum, students at this level are expected to fully remediate via a focused review. At least three hours of ATI Focused Review is required for each exam taken.</td>
</tr>
<tr>
<td>Students reaching Proficiency Level 0: “below Level 1”</td>
<td>Indicates a need for thorough review of this content area. Students are strongly encouraged to develop and complete an intensive plan for focused review. Remediation is required. At a minimum, students at this level are expected to fully remediate via a focused review. At least four hours of ATI Focused Review is required for each exam taken.</td>
</tr>
</tbody>
</table>

Remediation for Proctored exams
To remediate is to review an area that is not fully understood. Remediation is required for proficiency Level 1 or below a Level 1 on Proctored Exams only. When completing remediation activity that is not proctored (i.e. on the internet at home or out of the classroom), be aware that the instructor has access to detailed information about the timing and duration of remediation efforts. If remediation expectations are not met, the student may be required to come to campus to take another remediation test in a proctored environment. Remediation is intended to help the student recover important information that was missed on the initial test.
ATI Tests B.S. Generic Testing Schedule
Pre-Admission - TEAS (Proctored)
Orientation - Critical Thinking-Entrance (Proctored)

</table>

Virtual ATI – During the last semester (NUR 43300) and/or upon completion of the degree, students will participate in a virtual review before scheduling the NCLEX-RN exam.

RN Comprehensive Predictor (Proctored):
Minimum Score -- 95% predicted probability of passing the NCLEX-RN
If a grade of less than 95% predicted probability of passing the NCLEX-RN is earned on the RN Comprehensive Predictor, a student must:
1. Meet with the course instructor, utilize ATI review book, and take ATI practice tests.
2. Must allow at least three (3) days between each retake of the test.
3. ATI student transcript must accompany test results given to the course instructor.

Lasater Clinical Judgment

The IPFW Department of Nursing faculty use a set of criteria to evaluate student performance in the simulation labs and clinical experiences called the Lasater Clinical Judgment Rubric.
Dr. Kathie Lasater (2007) developed the rubric to assist evaluation of nursing students’ actions during simulation, and it is based on Tanner’s (2006) Clinical Judgment Model. The rubric has 11 dimensions and 4 levels within each dimension to rate students on how they handle patient care situations.

Students should become familiar with the rubric and its criteria to help understand the role of a nurse. In NUR 43300 Advanced Concepts in Critical Thinking, nursing faculty will evaluate students’ care of simulated patients. Students must achieve a rating of competent within the rubric to graduate from the program. Students will not be expected to perform at this level in the beginning of the program, rather it is a goal upon completion the program.

Lasater Clinical Judgment Rubric

Effective NOTICING involves:
  Dimension – Focused Observation
  • Beginning (1) – Confused by the clinical situation and the amount and kind of data; observations not organized and important data missed, and/or assessment errors made
  • Developing (2) – Attempts to monitor a variety of subjective and objective data but overwhelmed by the array of data; focuses on most obvious data, missing some important information
  • Accomplished (3) – Regularly observes and monitors variety of data, subjective and objective; most useful information noticed; may miss most subtle signs
  • Exemplary (4) – Focuses observations appropriately; observes and monitors wide variety of objective and subjective data to uncover any useful information

Effective NOTICING involves:
  Dimension - Recognizing deviations from expected patterns
  • Beginning (1) - Focuses on one thing at a time and misses most patterns and deviations from expectations; misses opportunities to refine assessment
  • Developing (2) - Identifies obvious patterns and deviations, missing some important information; unsure how to continue assessment
  • Accomplished (3) - Recognizes most obvious patterns and deviations in data and uses these to continually assess
  • Exemplary (4) - Recognizes subtle patterns and deviations from expected patterns in data and uses these to guide assessment

Effective NOTICING involves:
  Dimension – Information seeking
  • Beginning (1) - Is ineffective in seeking information; relies mostly on objective data; has difficulty interacting with patient and SO and fails to collect important subjective data
  • Developing (2) - Makes limited efforts to seek additional information from patient and SO; often seems not to know what information to seek and/or pursues unrelated information
  • Accomplished (3) - Actively seeks subjective information about patient’s situation from the patient and SO to support planning interventions; occasionally does not pursue important leads
  • Exemplary (4) - Assertively seeks information to plan intervention; carefully collects useful subjective data from observing and interacting with the patient and SO

Effective INTREPRETING involves:
  Dimension - Prioritizing data
  • Beginning (1) - Has difficulty focusing and appears not to know which data are most important to the diagnosis; attempts to attend to all available data
  • Developing (2) - Makes an effort to prioritize data and focus on most important, but also attends to less relevant or useful data
  • Accomplished (3) - Generally focuses on most important data and seeks further relevant
information but also may try to attend to less pertinent data
• Exemplary (4) - Focuses on the most relevant and important data useful for explaining patient’s condition

Withdrawing From a Course

Students may withdraw from a course according to the timeframes below. Depending on when a course is dropped, a student may or may not be eligible for a refund. Withdrawing from a class may have financial aid consequences. A student considering withdrawing from a course is responsible for understanding the withdrawal policy. More information regarding withdrawing from a course can be found on the Registration Policies page of the IPFW Registrar website.

Through Week 4 of Classes
A student may officially withdraw from a course via myIPFW or by submitting a completed schedule revision (drop/add) form with appropriate signatures to the Office of the Registrar. The course is not recorded on the student’s record.

Weeks 5-9
A student may officially withdraw from a course via myIPFW or by submitting a completed schedule revision (drop/add) form with appropriate signatures to the Office of the Registrar. A grade of W is recorded on the student’s record.

Weeks 10-16
Courses cannot normally be dropped during this period. If a drop is approved, the course is recorded with a grade of W on student’s record (reason for withdrawing must be extraordinary, i.e. hospitalization).

NOTE: Students receiving a failing grade are ineligible to participate in the withdrawal procedure after the first nine (9) weeks.

Auditing a Class

An auditor is a student who enrolls in a course, attends class, and pays full fees but does not receive a grade or credit for the course. A reason a student may want to audit a class is to gain knowledge in the course and retake it during a future semester so as to earn a passing grade. Information regarding auditing a class can be found on the Attendance and Withdrawal page of the Financial Aid website.

Students may enroll as an auditor by noting “Auditor” (A) in the appropriate space on the registration form and by completing the normal registration procedures established by the division/department. Regular course fees will be assessed. Students will be assigned a grade of W (withdraw) or NC (no credit) and will not receive academic credit for the course.
SECTION IV – CODE OF CONDUCT AND DEPARTMENT POLICIES

Students should be familiar and are responsible for the policies and procedures of the University, College, and Department including those noted in this section and the undergraduate policies listed in the appendix.

Academic Regulations

If a student earns a grade below C- in a required nursing course, enrollment in another nursing course with a prerequisite of the failed course cannot be completed until the failed course is repeated with an earned grade of C- or better.

- If a student earns a grade below C- in any nursing course, that course must be repeated in the subsequent semester and earn a grade of C- or better.
- If a student earns a grade below C- in any course required in the undergraduate nursing curriculum, that course must be repeated with an earned grade of C- or better.
- Dismissal from the undergraduate nursing program may result at any time it is determined that inappropriate behavior of a nursing student places clients, other students, staff, faculty, or the university at risk for any harm or potential harm.
- A student who is dismissed may appeal the decision to the Department of Nursing. If dismissed for failure to meet the university’s minimum academic standards, application for readmission must follow the procedures established by the university. The Department of Nursing recognizes the Academic Renewal option.
- A student who has been dismissed from the IPFW undergraduate nursing program or any other undergraduate nursing program and is readmitted will be dismissed from the program if a failure of any one required course in the undergraduate nursing curriculum occurs.

Academic Standing Policy

IPFW’s policy regarding academic standing and probation can be found on the Academic Regulations Academic Standing website. A student will be placed on academic probation if his/her GPA falls below set guidelines. A student on academic probation will be dismissed from the university if his/her GPA does not improve.

Clinical Absence and Tardiness

In the case of illness or emergency that results in the student missing a clinical, it is the student’s responsibility to inform both the instructor and the clinical agency of absence. Attendance is required in all clinicals. Clinical absence must be made up. Repeated tardiness or not calling in for absences may result in clinical failure for unprofessional behavior.
Codes of Conduct and Professional Misconduct Policy

Students are held to the standards of the Indiana Nurse Practice Act and as such are liable for their own actions. Behaviors of professional misconduct occurring at any time while the person is a student in the nursing program that may result in disciplinary action include but are not limited to:

- Patient abandonment and/or neglect
- Commission of fraudulent acts/documentation/accessing or documenting in the Cerner AES account of another student
- Breaching a patient's rights to privacy and confidentiality by disclosing Protected Health Information as specified by HIPAA regulations
- This breach includes accessing an electronic health record in an area where others can view it, printing of information at an unauthorized printer, and sharing patient or agency information details in social networking tools such as Facebook and Twitter, texting, or photographing with a cell phone or other electronic devices
- Theft of property from a clinical agency, client, others, or IPFW
- Disorderly conduct
- Verbal abuse that involves an expressed or implied threat to a person’s safety
- Physical abuse of any person
- Possession of a weapon
- Use, under the influence, and/or possession of a controlled substance while at a clinical agency
- Use, under the influence, and/or possession of alcohol while at a clinical agency
- Failure to report conviction of criminal activity
- Failed drug screen and/or possession of drugs or controlled substances
- Failed drug screen and/or possession of alcohol while at a clinical agency
- Failure to report an arrest with felony charges or a felony conviction

Students are held to the standards of the American Nurses Association (ANA) Code of Ethics for Nurses as well as IPFW’s Code of Student Rights, Responsibilities, and Conduct and Purdue’s Student Regulations.

Students may be failed in a nursing course and/or dismissed from the nursing program for unprofessional conduct that jeopardizes the health and/or safety of patients/clients and/or others or has a potentially detrimental effect on the Department of Nursing.

Due to the serious consequence of certain unprofessional behaviors, procedures for dismissal from the program may be initiated. If the student is in a clinical setting at the time that professional misconduct occurs, the person will be immediately removed from the site. The student will be suspended from all clinical settings pending the outcome of the disciplinary process.

The IPFW Code of Student Rights, Responsibilities, and Conduct can be found in the IPFW Student Handbook.

DON Undergraduate Student Information Manual
Confidentiality

Maintenance of confidentiality is of primary importance in any method of patient data collection. Each student enrolled in a nursing course with an associated clinical must review the Purdue HIPAA training, take the HIPAA Quiz earning 100 percent, and turn in the signed Purdue University Confidentially Agreement.

No identifying patient information, including computer generated information, may be taken out of the agency. This includes such information as patient initials, date of admission, date of discharge, and social security number.

Criteria for Dismissal from Pre-Nursing/Ineligibility for Admission to Nursing

A student who earns grades as described following will be ineligible for program admission for a period of five years after earning the last grade below C-: Receipt of the 2nd grade below C- in required non-NUR courses (ENG W131, COM 11400, PSY 12000, BIOL 20300, CHM 10400, ENG W233, SOC S161 or ANTH E105, FNN 30300, BIOL 22000, BIOL 20400, PCTX 20100) OR receipt of the 2nd grade below C- in required NUR and/or Nursing Elective (NUR or CHHS) courses.

A student who is dismissed may appeal the decision to the Department of Nursing. If a student is dismissed for failure to meet the university's minimum academic standards, application for readmission must follow the procedures established by the university. The Department of Nursing recognizes the Academic Renewal option. Dismissal from the nursing program may result from professional misconduct policy.

Criteria for Dismissal from Nursing

A student shall be dismissed from the Nursing undergraduate major for a timeframe of five years under the following conditions:

- Receipt of the 2nd grade below C- in required non-NUR courses (ENG W131, COM 11400, PSY 12000, BIOL 20300, CHM 10400, ENG W233, SOC S161 or ANTH E105, FNN 30300, BIOL 22000, BIOL 20400, PCTX 20100) OR receipt of the 2nd grade below C- in required NUR and/or Nursing Elective (NUR or CHHS) courses.
- A student who has been dismissed from the nursing program is ineligible for admission into the nursing program for a period of five years from the date of dismissal.
- Dismissal from the nursing program may result from professional misconduct policy (see misconduct policy).
- A student who is dismissed may appeal the decision to the Department of Nursing. If a student is dismissed for failure to meet the university's minimum academic standards, application for readmission must follow the procedures established by the university. The Department of Nursing recognizes the Academic Renewal option.
Grade Appeal Policy and Procedure

The Student Grade Appeal Policy and Procedure applies to all students enrolled in an IPFW College of Health and Human Services (CHHS) course offered by the College. Students who have evidence or believe evidence exists that a course grade, similar evaluation, or student progression decision was made as a result of prejudice, caprice, or other improper conditions, such as mechanical error, may appeal that action. Complaints concerning actions or decisions of faculty or staff members of the College which are claimed to violate rights established in the IPFW Student Code under Part I, except Part I.A.3 or Part I.A.4, should follow the College’s Student Complaint Policy. Complaints of discrimination or harassment (Part I.A.3 or Part I.A.4) should be taken to the Office of Institutional Equity. Students may seek advice by meeting with the IPFW Dean of Students or the Dean of the College of Health and Human Services or designee.

In appealing, the student must support that an improper decision has been made and specify the remedy sought in writing on the Student Appeal Procedure Checklist form. The student may seek the assistance of the IPFW Dean of Students in pursuing the appeal. The student may have an advisor or friend present during all meetings with faculty members, administrators, and/or committees. The advisor or friend may advise the student but may not speak for the student during meetings.

In the case of a grade appeal, a course grade can only be changed by a university authority upon the recommendation of the IPFW Grade Appeals Subcommittee or by the instructor any time prior to the Grade Appeals Subcommittee’s decision.

Plagiarism

According to the American Psychiatric Association (2010), plagiarism is the representation of another author’s work as one’s own. Additional clarification of plagiarism is found in the following statements from the American Psychological Association:

“Quotation marks should be used to indicate the exact words of another author. Each time you paraphrase another author (i.e. summarize a passage or rearrange the order of a sentence and change some of the words), you will need to credit the source in the text. The key element of this principle is that an author does not present the work of another author as if it were his or her own work” (p.349).

The Plagiarism Policy of the Department of Nursing indicates that any student who plagiarizes has committed academic dishonesty and misconduct which may lead to dismissal from the program or college. Any student who has been identified to have plagiarized will receive a zero for that assignment.
In all nursing courses, the course professor has the discretion to submit a student’s paper to tools or commercial products that check student assignment submissions against various online databases to determine the originality. A student who requests not to have a paper submitted to such tools must submit copies of all the referenced materials included in the assignment to the course professor. Papers submitted to plagiarism tools become part of the searchable database.
SECTION V – STUDENT RESOURCES

Emergency – Dial 911

The IPFW Emergency Handbook addresses procedures to follow regarding various emergency situations. Students should review the handbook and be aware of what to do if such a situation occurs.

Academic Advising

Academic advisors are available in every department to assist students by providing accurate, up-to-date information and appropriate guidance on academic matters. The Department of Nursing has two full-time academic advisors for the undergraduate nursing and pre-nursing students as well as faculty member mentors. Each student is assigned as his/her advisors a Coordinator of Academic Advising and a faculty mentor. The nursing advising offices are located in LA Suite 303. The Director of Undergraduate Programs can be reached at (260) 481-6276, LA 341.

Academic advising is also available through the Mastodon Academic Performance Center (MAP). Appointments with professional academic advisors help with guiding students in deciding on their major and ultimately their career; help for exploring students, deciding students, readmitted students; and help with various other student resources. The MAC is located in Walb Student Union Room 145, phone (260) 481-6595.

Blackboard Learn

The Department of Nursing uses the course management system Blackboard Learn. Students are expected to access Blackboard on a regular basis to participate in classes. Information and training on Blackboard Learn is provided through ITS Services Training. Online learning assistance is available from the Division of Continuing Studies. While every course is different, this orientation provides helpful tips on becoming a successful student.

Career Services

IPFW offers a variety of services for exploring job opportunities through Career Services Center. Offerings include resume preparation, interviewing help, networking, job search techniques, and career fairs. More information can be found on their website and in Room 109 of Kettler Hall, phone (260) 481-0689.
Center for Women and Returning Adults

IPFW offers a variety of services for the non-traditional students, both women and men, who are age 23 and older, married, and/or parents through the Center for Women and Returning Adults (CWRA). The center is located in the Walb Student Union in Rooms 120, phone (260) 481-6029.

Centers for Academic Success and Achievement (CASA)

CASA offers services to students such as tutoring, writing assistance, math testing, group study rooms, English as a Second Language (ESL), assessments, and student employment. CASA is located on the ground floor of Kettler Hall in Room G23. Hours are Monday through Friday from 8 a.m. to 5 p.m. CASA can be contacted at (260) 481-5419.

Communication

The official university communication is by IPFW email using the university student email address. Email includes information sent to the nursing listserv. Students must maintain the mailbox, including sufficient space to receive emails. Students are responsible for information sent via email.

Cancellation of Classes

Nursing classes will be cancelled only if:
- IPFW is officially closed by the administration of the university, or
- The practicum or clinic site is closed by officials of that institution.

Decisions to close IPFW and practicum/clinic sites are left to the chief administrators of those respective facilities. In the event of inclement weather, listen to local radio or television announcements, check the IPFW homepage, Safety Alert webpage, Facebook, or Twitter or call the campus weather emergency number at (260) 481-6050 or (260) 481-5770 for a recorded message. Students may receive campus alerts by phone or text by signing up through myIPFW.

Dean of Students

The Office of the Dean of Students serves as the primary student advocate on campus. It acts as a central hub for information so that students are able to get to desired information quickly and as efficiently as possible. The Dean of Students implements the IPFW Code of Student Rights, Responsibilities, and Conduct. It assists students in mentoring, conflict resolution, student wellness, student resources, and other student services.
The Office of the Dean of Students coordinates the CARE Team, which is used to identify any students who are of concern. The students identified may be in crisis or may simply need to receive guidance to become successful at IPFW. The office is located in the Walb Student Union Room 111. Phone number is (260) 481-6601.

Diversity and Multicultural Affairs

IPFW provides a vital support system for faculty, staff, and students of various ethnic and cultural heritages through the Office of Diversity and Multicultural Affairs (ODMA). The department strives to advance respect for the dignity and worth of individuals of diverse backgrounds and ideologies and promotes and affirms community outreach and coalition building. ODMA is located in Walb Student Union Room 118, phone 481-6608.

Documenting Research Papers

The American Psychological Association (APA) style of documentation will be used for all papers written to fulfill requirements for courses in the Nursing Department. The *Publication Manual of the American Psychological Association* (6th Ed.), a required textbook, can be purchased from the bookstore. The book is also available in the library.

Proper documentation for papers is part of the intellectual responsibility expected of college students. Complete and accurate citations enable the reader to locate and review the complete cited research, article, or book. Documentation also serves as a means of giving credit to the originator of the ideas or the research. To fail to give credit to the originator is plagiarism. See information on the Writing Center below for aids in writing.

Health and Wellness Services

IPFW provides comprehensive services to meet the health needs of the students, faculty, staff, and the general public. Information is available on the Health and Wellness website.

**Health Clinic**
The [IPFW Center for Healthy Living Campus Clinic](http://www.ipfw.edu/healthwellness) is an outpatient facility providing a variety of health care services to students, faculty, staff, and community members. It is located in Walb Student Union Room 234 and is open Monday through Friday from 8:30 a.m. to 4:30 p.m. Appointments can be made by calling (260) 481-5748. Urgent care is available.

**Dental Clinic**
The [IPFW Dental Hygiene Clinic](http://www.ipfw.edu/healthwellness/dental) offers preventative dental services for students, faculty, staff, and the community for a nominal fee. It is located in Neff Hall in Room 109, phone (260) 481-6575. Hours of operation and appointment information are available on the website.
Counseling Services
The IPFW/Parkview Student Assistance Program (SAP) provides confidential, short-term personal counseling services free of charge to all students currently enrolled at IPFW. This includes individual, group, and couples counseling. The office is located in Room 111 of Walb Student Union, phone (260) 481-8060 or toll-free 1-800-721-8809.

Communications Clinic
The IPFW Communication Disorders Clinic provides speech, hearing, and language screening, evaluation, and treatment for selected children and adults. The services are performed by students under direct faculty supervision. The clinic is located in Neff Hall Room 279, phone (260) 481-6410. Students and faculty may contact the clinic for more information.

Fitness Center
All IPFW students are eligible for membership at the IPFW Fitness Center in the Hilliard Gates Sports Center at no extra cost. The fitness center provides strength training equipment, cardio conditioning equipment, walking track, basketball and racquetball courts, and fitness classes as well as other health promoting services.

Information Technology
Assistance with information technology includes accounts and passwords, email, software and applications, myIPFW, and training and instructional materials. Additional services can be found on the Information Technology Services (ITS) website.

Help Desk
The ITS Help Desk provides a centralized point of contact for campus technology support. Hours are Monday through Thursday from 7:30 a.m. to 8 p.m., Friday from 7:30 a.m. to 6 p.m., and Saturday from 8 a.m. to 4:30 p.m. Contact information is as follows:
   Phone (260) 481-6030
   Email helpdesk@ipfw.edu
   Room KT 206

IPFW has excellent technology services to support learning. Each student in the program is required to have access to a computer for prolonged periods of time to complete requirements of the courses.

International Student Services
The Office of International Education provides admissions and related services for new and continuing IPFW international students, coordinates various campus and community ethnic and cultural celebrations, and assists with study abroad programs. The office can be contacted at (260) 481-6034.
Library Resources

The [Walter E. Helmke Library](#) resources for nursing faculty and students include health science, education, psychology, and management information. The library maintains connections with other libraries that support the cross-disciplinary nature of nursing. The library’s holdings and cross-library resources are searchable via IUCAT, the IU Library Catalog shared among all IU campuses. This catalog includes both print and electronic materials. Using the library’s Request Delivery through IUCAT, the collections at IU-MED and all other IU campuses can be shipped to Fort Wayne for use as long as the book is not shelved in the reference collections.

Shannon Johnson, Information Services and Instruction Librarian, serves as the liaison to Health Sciences and is available to assist faculty and students with library services. She can be reached by phone at (260) 481-6502 or email at johnsons@ipfw.edu.

Additional library services are available at the following locations:

**St. Joseph Hospital Library Services**
St. Joseph Medical Center allows free use of the library and its holdings. Facilities for computer searches are available. The library contains over 325 current journals and a collection of over 1,000 texts. Photocopying is free, but the librarians request that students notify them of the number of copies made.

**Parkview Resource Library Services for Students**
PRMC library is located on the 1st floor of the hospital located at 11109 Parkview Plaza Drive. Library resources are available only to students who are involved in a clinical at that time. Library staff may assist with basic searching skills and accessing full-text articles as time permits. Parkview badge access is required, and students may obtain access to the library by asking a Parkview employee.

- **Phone**  (260) 266-1444
- **Fax**  (260) 266-1445
- **Email**  Julie.hughbanks@parkview.com or library@parkview.com
- **Hours**  Monday through Friday, 8:00 a.m. to 3:30 p.m.

**Parking**

[Open parking areas](#) (lots have white lines) are for students and visitors. No permits are required in open areas. The parking garages have open spaces from the second level up. Permits for accessible parking for students with disabilities are available from IPFW's University Police in the Support Services Building.

Parking spaces marked by “A” and painted with the green lines are limited to faculty and staff who have purchased a hang tag. Students may park in spaces not otherwise reserved (“A” parking, visitor, or for those with disabilities). Some “A” parking areas change to open parking after 5 p.m. Signs are posted to identify these areas.
Parking regulations and campus maps can be found on the parking information page of the University Police website.

Safety Alerts

Safety Alerts are posted on the Alert Info webpage. Information will also be available on Facebook and Twitter. Students may receive campus alerts by phone or text by signing up through myIPFW.

Smoking Policy

IPFW is a smoke-free and tobacco-free campus. The tobacco-free policy can be found on the Chancellor’s website.

Student Housing

Students may opt to live in IPFW Student Housing during the traditional academic year (fall and spring semester/10 months) or for a full year (fall, spring, and summer semesters/12 months). The type of apartment and length of stay determine the cost. Refer to the Student Housing website for more information.

Students planning to enter Student Housing are encouraged to apply for a space as early as possible. Students who want to live in Student Housing during fall semester should apply before May 1. Students wanting to live in Student Housing during spring semester should apply by November 1 of the previous year.

Students with Disabilities

IPFW provides assistance for Services for Students with Disabilities to ensure the accessibility of University programs and services to eligible students. Accommodations, also called support services, are individually determined based on the specific needs and may include modified testing environments, sign language interpreters, and assistance obtaining books in audio format. The office provides auxiliary assistance and program-access services for students with special needs that are based on disability.

The Director of Services for Student With Disabilities serves as IPFW’s coordinator for the implementation of the Americans With Disabilities Act (ADA) and hears initial complaints based on the civil rights of students with disabilities. The office is located in Walb Student Union Room 113 and can be contacted at (260) 481-6657.
Studio M

Studio M is a multimedia production lab supporting both Mac and Windows programs in the following areas:

- Graphic design/print production
- Video editing and post production
- Audio recording, editing
- CD/DVD authoring
- Web authoring
- 2D/3D animation, layout, modeling, and rendering
- Interactive media creation

Services of Studio M include color printing, customized computer assistance, consultation on project planning, and software demonstrations. Open labs are maintained by ITS and staffed by student workers. Studio M is located in Walb Student Union Room 220, phone (260) 481-0114.

Testing Services

A variety of services, assessments, and tests for students and community members are available at IPFW Testing Services in Kettler Hall Room 232, phone (260) 481-6600.

University Police

The university police are available 24/7 to handle emergency situations. Officers provide various other services including escort to vehicles, campus patrols, safety programs, helping stranded motorists, and issuing parking violations. A list of services can be found on the University Police website.

Other helpful information is listed below:
Emergency – Dial 911
Escort – 16827 or (260) 481-6827
General Information for University Police – 16827 or (260) 481-6827
Weather Info line – (260) 481-6050 or (260) 481-5770
Safety Alerts
Emergency Handbook

Writing Center

Assistance in improving writing skills is available in the Writing Center located at the Learning Commons on the second floor of the Helmke Library. The staff will help with brainstorming, developing and organizing ideas, working on issues of meaning and style, and learning to polish and edit documents. The center is not a proofreading service; improving writing takes
time. To set up a 30- or 50- minute free appointment check with TutorTrac or with the CASA student receptionist at the Learning Commons desk. Students can also submit email consultation requests online 24/7. Please allow 2-3 days for your submission to be returned. For more information, visit the Online Consultation page.

Student should bring assignment to appointment as well as due dates, questions, ideas, and draft of the document. For success contact the Writing Center early in the writing process and seek assistance regularly.

Additional resources for enhancing writing skills are available at the following:

- APA Style Help
- Purdue Online Writing Lab (OWL)
SECTION VI – CLINICAL REQUIREMENTS AND PRIVILEGES

Clinical requirements can be found on the Department of Nursing Clinical Requirements webpage. This site provides links and forms for completing the requirements for student participating in a clinical setting.

A student who has not met clinical agency requirements within the required time frame of August 15 (fall semester), December 17 (spring semester), May 1 (summer sessions I and II) will be dropped from clinical course(s) and any co-requisite course(s). Being removed from the course(s) may result in forfeit of financial aid.

Neither class nor clinical space will be held for any student dropped by the deadline of August 15 (fall semester), December 17 (spring semester), or May 1 (summer sessions I and II). Classes are closed when the seating limit is reached.

Clinical requirements must be turned in to the nursing department office by the policy deadlines. Clinical Requirements remain valid through the end of the semester.

In addition, students must comply with the policies and procedures below.

Background Check

Each student needs to complete the Student Check Healthcare Student Background Check by August 15 for fall semester, December 17 for spring semester, and May 1 for summer sessions I and II. After the initial background check, students are required to do an Annual Personal Disclosure each year between August 1 and August 14. Students entering NUR 41800 Community/Public Health must have Pre-Check Background Check that has been completed within 12 months and will remain valid through the end of the semester.

Cardiopulmonary Resuscitation Certification

Proof of completed professional/health care provider level cardiopulmonary resuscitation (CPR) must be submitted to Department Secretary (LA 345) by August 15 (fall semester), December 17 (spring semester), or May 1 (summer sessions I and II). CPR certification must be valid through the end of the semester. CPR must be Professional Rescuer or Health Care Provider. One online CPR is approved by the Department of Nursing: Corporate Health and Prevention Online.

A photocopy of the front and back of the card must be given to or sent via email to a nursing department secretary, Room LA 345. CPR card must be signed by a Professional/Health Care Provider.
Classroom Research

Upon entrance into the program, students sign a consent form acknowledging willingness to participate in research projects that faculty may conduct. Students who do not wish to participate in a particular project should contact his/her instructor.

Communicable Disease Policy

While in the clinical practicum setting, students are responsible for being free of communicable disease. If a student has been exposed or shows indications of communicable disease, he/she must inform a member of the faculty prior to going to the clinical practicum site.

Exposure Incident Policy and Procedures for Nursing Students

Students enrolled in a program in the health sciences may be exposed to possible injuries and communicable diseases. All students are required to carry their own health insurance. Costs associated with any incident on campus or at clinical sites shall remain the responsibility of the student. Information regarding coverage is available through Student Life.

If a student has an exposure incident, the Exposure Incident Policy and Procedure must be followed. Documentation forms that are found in the policy and procedure must be completed and signed and copies distributed.

Exposure incident is defined as a specific eye, mouth, other mucous membrane, non-intact skin, or parenteral contact with blood or other potentially infectious materials that results from the performance of health care professionals (OSHA, 1991).

If a student in any clinical setting has an exposure incident, the following procedures will be followed:

1. The student will notify the clinical instructor immediately. In special cases a designated preceptor may be notified.
2. Make sure proper protocol (required by the clinical agency, hospital, clinic, home care, community setting, etc.) is followed and immediate care of the wound or splash is completed. Determine if the individual was able to squeeze blood from the wound. Parkview Occupational Health reports there is no need to do any testing if there was not blood-to-blood contact. Disinfection procedures will be adequate if skin was slightly punctured without blood.
3. The IPFW Bloodborne Pathogens Exposure Incident Form (see sample in Appendix) will be completed and signed by both the clinical faculty member (or designated preceptor) and the individual who was potentially exposed to a bloodborne pathogen. Copies will be given to the following:
   a. Parkview Occupational Health or other health care facility where follow-up care was provided.
b. The manager of IPFW Radiology and Environmental Management.
c. IPFW Nursing Lab Coordinator, who will keep confidential records. No information on the incident will be kept in the student’s academic file or faculty’s personal file. All information will remain confidential.
d. The individual who was injured.

4. Additionally, the required institutional (hospital, clinic, home care, community setting, etc.) form/report will be completed.

5. The student will be advised to be seen without delay (within one to two hours is recommended) at a medical facility. Suggested sites are Parkview Occupational Health, located at 3103 East State Boulevard, phone (260) 471-0411; Parkview Emergency Room; or IPFW Center for Healthy Living Campus Clinic, located on the 2nd floor of the Walb Union, for counseling and appropriate care. Parkview Occupational Health and Parkview Emergency Room are open 24 hours a day. IPFW clinic is open Monday through Friday with daytime hours available.

6. As soon as possible following the incident, the clinical faculty member needs to verbally report the exposure incident to the lead faculty member who is responsible for the course.

7. Ensure that all clinical faculty members have a supply of the IPFW Bloodborne Pathogens Exposure Incident Form and the Exposure Incident Policy with them in the clinical settings.

8. This policy and procedure will be reviewed annually during the first faculty meeting of fall semester.

Health Form

Each student must complete a required [Health Record Form](#) and submit the completed health form to the department secretary, LA 345.

Immunizations and Screenings

**TB/Mantoux/Quanteferon Gold**
Each student must submit proof of completed TB to the Department secretary by August 15 (fall semester), December 17 (spring semester), May 1 (summer sessions I and II). The TB skin test must be valid through the end of the semester.

A student with a positive reaction to the TB skin test must submit the [TB Surveillance Record Positive Reactor Checklist](#) by the deadline (see sample in Appendix). If a student’s Chest X-Ray was done more than three years ago, he/she will need to get a new Chest X-Ray and turn in the report to meet the deadlines of August 15 (fall semester), December 17 (spring semester), or May 1 (summer sessions I and II).

**Hepatitis B Immunization**
Upon admission to the nursing program, each student must submit proof of completion of the series of three Hepatitis B immunizations or a positive reactive titer to the Department Secretary in LA 345.
Flu Vaccine
In accordance with recommendations by the Center for Disease Control and local health care organizations where students will be attending, nursing students enrolled in clinicals or practicums are required to obtain an annual flu immunization. The date for receiving the flu immunization will be announced each fall semester.

Substance Abuse Screen
The following policy will be followed regarding substance abuse screening:
1. Each student enrolled in a clinical course is required to undergo a substance abuse screen at least every 12 months to test for the presence of alcohol, drugs, or other controlled substance.
2. In subsequent semester the substance abuse screen must be completed by August 15 (fall semester), December 17 (spring semester), or May 1 (summer sessions I and II) to meet the every 12-month requirement.
3. If any substance abuse test reveals that a student is engaging in the illegal use of drugs, is otherwise impaired and unable to perform one or more essential functions of the job with or without reasonable accommodation as may be required by law, or poses a direct threat to the health or safety of others, the student will fail the nursing course and be dismissed from the Department of Nursing and from the College of Health and Human Services.
4. Disclosure of prescribed medications must be supported by prescription documentation.
5. Upon failure of the substance abuse screen, one retest at the student’s expense immediately after receiving notification of the failed substance abuse screen will be permitted.
6. A subsequent failure of the substance abuse screen results in immediate course failure and dismissal from the Department of Nursing and from the College of Health and Human Services for a minimum of five (5) years.
7. Any licensed nursing student failing the retest substance abuse screen or refusing a retest will be reported to the Indiana State Board of Nursing.
8. Any student dismissed from the Department of Nursing due to failure of the substance abuse screen will be directed to the Dean of Students.
9. After five (5) years, application for readmission to the Department of Nursing will be considered with documentation of continuous compliance with a recovery treatment program.

Additionally, a student may undergo a substance abuse screen to test for the presence of alcohol, drugs, or other controlled substances under the following conditions:
1. Following an injury occurring at the clinical site
2. When a medication or handling discrepancy occurs or when medication may have been stolen or improperly used at the clinical site involving students or others working in the area to which students have been assigned
3. At random intervals, when a student appears to be unfit for duty as a result of the use of drugs, alcohol, or other controlled substances
4. When there is reasonable cause or suspicion to believe that a student is under the influence of alcohol, drugs, or other controlled substances
5. Upon the return of a student following a period of absence (not enrolled in classes) from providing services of more than 30 days and when the student has illegally or improperly used controlled substances and has successfully completed a rehabilitation program, all except to the extent prohibited by law

Contact any of the following health services facilities to arrange a time to begin the substance abuse screening process.

**IPFW Center for Healthy Living.** Clinic is located in Walb Student Union Room 234 and is open Monday through Friday from 8:30 a.m. to 4:30 p.m. Appointments can be made by calling (260) 481-5748.

**RediMed Clinics.** Fee is required and payable to the facility at the time of the screening. A check or cash will be accepted. Bring IPFW Student Mastodon ID card.

**Parkview Occupational Health.** Fee is required and payable to the facility at the time of the screening. Parkview Occupational Health is open 24 hours per day from 7 a.m. on Monday to 7 a.m. on Saturday. No appointment is necessary. Parkview can be contacted at (260) 373-9300.

**Student Professional Liability Insurance**

All students in the clinical area are required to carry professional liability insurance. This insurance covers the person only in the clinical area while in the student role. Hospital insurance policies do not cover students. This insurance can be obtained through the following:

- **Private insurance company.** A copy of professional liability insurance including the name of the insurance company, statement of coverage as a student, dates of coverage, and policy number must be submitted to the nursing secretary by August 15 (fall semester), December 17 (spring semester), or May 1 (summer sessions I and II).

- **Group policy through the University.** Insurance available through the university will automatically be charged to student’s IPFW account once per year. Insurance charged during fall semester is valid through May 31 of the academic year. Insurance charged for the spring semester is valid through May 31 of the academic year.

- **Student Professional Liability Coverage through the University**

Special coverage is available to students who, as part of their course requirements, work with members of the public either on or off campus. As all students in these situations are exposed to potential liability, the DON does recommend purchase of this coverage. Purdue Insurance Services Enterprise provides coverage for the following:
- Liability arising out of real or alleged wrongful acts
- Payment of all court costs
- Expert legal counsel and claims adjusters
The insurance covers a student for activities related to his/her normal curriculum, studies, and assignments 24 hours a day—in or out of school—including vacations and days off. Coverage does not apply to activities not considered to be a part of a student’s academic requirements.

Limits of Liability are as follows:
- $1,000,000/$3,000,000 (Pays up to a total of $3,000,000 in any one year)
- If a claim is presented years after a wrongful act is alleged to have occurred, coverage will respond so long as the policy was in effect when the act occurred.
- The policy period is from June 1 through May 31 of the following year.

Health Insurance

Students who attend nursing clinicals at Lutheran Health Network facilities must submit proof of having health care insurance. Students should submit a copy of their insurance card to the nursing department office by the clinical requirements deadline. Students who attend clinicals in organizational settings other than Lutheran Health Network are not required to have health insurance coverage.

Student Uniforms

Required standards for nursing student uniforms for the undergraduate nursing program are as follows:
- Specific styles have been designated for each item of the uniform apparel which includes top, pants or skirt (allow additional time when ordering skirt), and jacket.
- Full uniform consists of designated uniform, hose/socks, shoes, name pin, watch with second hand, and appropriate underclothing. Stethoscope with diaphragm and bell attachments required. Use of a jacket is optional.
- An IPFW embroidered logo must be applied in a designated area on the left side of the uniform top and on the jacket. The IPFW embroidered logo will be applied by James Medical (see contact information below).
- All components of the uniform must be indigo in color and be the style that is designated for that item.

Other regulations regarding standard of dress are as follows:

<table>
<thead>
<tr>
<th>Uniform</th>
<th>Students may wear white short or long sleeve turtleneck or T-shirt with round neck under uniform top. A uniform lab jacket may be worn over the uniform top. No other apparel is to be worn over the uniform top in the clinical setting.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Shoes</td>
<td>Clean walking shoes are to be worn by men and women. Must be solid white, black, or gray in color. No mesh or fabric, no “Crocs” of any style, and no open toes or open heels.</td>
</tr>
</tbody>
</table>
Stockings
White, navy, or black crew style socks or hose for men and women. No textured, footies, or “no show” styles.

Hair
Hair should be styled modestly and natural looking. Hair should be off face, not touching shoulders, pulled back including ponytail. Headbands or pony tail elastics should be plain white, navy, or black and without adornment. Men’s facial hair should be neatly groomed.

Pins
NSA (Nursing Students Association) and/or Phi Theta Kappa Pins may be worn on student uniforms below the name pin.

Watch
Watch with second hand

Cosmetics
Natural looking

Fragrances
Fragrances/perfumes not permitted

Tattoos
Tattoos may not be visible. They must be covered when the student is in clinical.

Nails
Moderately short, clean, well rounded, CLEAR polish only

Jewelry/Piercings
Wedding and engagement rings only. No earrings, except two (2) small studs per ear. No other visible pierced jewelry is allowed. All other visible jewelry must be removed.

Uniforms and Name pin may be purchased at:
James Medical Uniforms
7821 Coldwater Road
Fort Wayne, IN 46825
Phone: (260) 969-1827
Contact: Doug James

Name Pin will read as follows:
Jane Doe (first and last name on top line)
Nursing Student (on second line)

UNIFORM MUST BE ORDERED AT LEAST 6 WEEKS PRIOR TO THE BEGINNING OF THE SEMESTER TO ASSURE AVAILABILITY FOR THE FIRST CLINICAL EXPERIENCE.
APPENDIX

Department of Nursing Undergraduate Policies

NOTE: Beginning with the fall 2010 semester, course numbers are 5-digits. For example, NUR 103 is now NUR 10300. All existing policies apply when a 3-digit course number is listed.

Policies 2017

Date: 2/17/2017  
Subject: Student Background Checks  
Motion: Students entering NUR 41800 Community/Public Health must have Pre-Check Background Check that has been completed within 12 months and will remain valid through the end of the semester.  
Effective: Fall 2017

Policies 2016

Date: 4/15/2016  
Subject: Credits within 5 years  
Motion: Credits in biology, nursing, pharmacology, and statistics must be earned within 5 years of admission to the nursing program.  
Effective: 4/15/2016

Date: 3/18/2016  
Subject: LPN Admission Criteria  
Motion:  
LPN Admission into Bachelor of Science with a Major in Nursing Program:  
• LPNs holding a current LPN license have the opportunity to validate course credit for NUR 11500 and NUR 13000 during the semester of completion of the 33 pre-nursing credit hours under the following conditions:  
  1. Deadline for test out for Fall semester is May 1st  
  2. Deadline for test out for Spring semester is November 1st  
  3. Graduate from an ACEN (NLNAC) accredited LPN program.  
  4. Must have successfully passed or currently be taking PCTX 20100.  
• If LPN successfully tests out of NUR 11500 and NUR 13000, conditional upon pre-nursing GPA of at least 2.8, student proceeds the next semester to NUR 10300 and NUR 20200 and/or NUR 24100.  
• If LPN does not successfully test out of NUR 11500 and NUR 13000, LPN can apply by the July 1 or December 1 application deadline and must fulfill all application requirements.  
Effective: Fall 2016

Date: 2/19/2016  
Subject: Courses that can be taken in place  
Motion: Students can take a 300 level or above undergraduate statistics course in place of NUR 37700.  
Effective: Summer 2016

Date: 2/19/2016  
Subject: Credit hour change for NUR 37900 and Open elective  
Motion: NUR 37900, Caring for Children will increase from 3 cr. to 4 cr. and drop open elective requirement from 3 cr. to 2 cr.  
Effective: Fall 2016 for incoming students

Date: 1/15/2016  
Subject: RN to B.S. transfer in credits  
Motion: For RN to B.S. transfer in credits. National certifications or accredited university program certificates will
be accepted for comparable courses on a case by case basis for transfer in as course credit at the discretion of the lead faculty of the course.

Date: 1/15/2016
Subject: Advancing into clinical courses after earning below a C- in another clinical course
Motion: If a student fails an undergraduate clinical course and is registered to take a (new) clinical course in a summer term, the student may enroll in the course as long as it is not a pre-requisite to the failed clinical course and there are no other extenuating circumstances preventing progression.

Policies 2015

Date: 5/12/2015
Subject: Course Placements in Curriculum: NUR 33400, NUR 34600, NUR 37700
Motion: In order to improve student preparation and understanding of concepts, the following courses will be changed placed accordingly in the curriculum for the traditional and RN to B.S. students:
• NUR 33400 Clinical Pathophysiology moved to fifth semester.
• NUR 34600 Advanced Health Assessment moved to fourth semester.
• NUR 37700 Professional Seminar II: Concepts and Trends in Healthcare Delivery moved to sixth semester.
  Nursing elective moved to seventh semester.
Effective: Spring 2016

Date: 5/12/2015
Subject: LPN Admissions
Motion: LPNs applying to our RN to BS program must have graduated from an accredited LPN program.
Effective: 5/12/2015 (In addition to 9/12/2014 policy).

Date: 4/17/2015
Subject: RN to B.S. Student Admission Criteria
Motion: Students admitted to the RN to B.S. program must have earned an associates degree from an accredited nursing program (ACEN or previously NLNAC or CCNE).
Effective: 4/17/2015

Date: 4/17/2015
Subject: Drop Course/Withdrawal Policy
Motion: Remove “withdrawal from two nursing courses policy: Students who drop a nursing course when they are earning a grade below 75% and/or unsatisfactory clinical performance will have a hold placed on their record and they will not be able to register for clinical nursing (NUR) courses until the Monday following freshman registration week.”
“Students may only withdraw from the same nursing course one time due to a grade less than 75% and/or unsatisfactory clinical performance.”
Effective: 4/17/2015

Date: 2/13/2015
Subject: Application to Nursing Program – TEAS Test
Motion: Students must meet the following requirements when applying to the nursing program:
• The TEAS will be taken only one time each application period.
• The TEAS results from different attempts cannot be combined.
• Applicants must have earned at least a “Proficient” level in the overall score to be eligible for admission.
• The applicant must have a minimal pre-nursing GPA
• The applicant must include a one-page essay reflection on the following questions:
  Why did I decide to become a nurse?
  What does being a nursing student at IPFW mean to me?
  What are my goals?
  How does my background and past experiences contribute to my success as a nurse?
Effective: Fall 2015 (Replaces policy 12/10/2010)
Policies 2014

Date: 11/21/2014
Subject: Student Clinical Dress Code
Motion: The following Student Clinical Dress Code was revised as follows and will become effective Spring 2015:
Uniform: (in addition to current guidelines) Students may wear white short or long sleeve turtleneck or T-shirt with round neck under uniform top. A uniform lab jacket may also be worn over the uniform top. No other apparel is to be worn over the uniform top in the clinical setting.
Shoes: (new guidelines) Clean, walking shoes are to be worn by men and women. Must be solid white, black, or gray in color. No mesh or fabric, no “Crocs” of any style, and no open-toes or open heels.
Stockings: (new guidelines) White, navy, or black crew style socks or hose for men and women. No textured, footies, or “no show” styles.
Hair: (new guidelines) Women and men hair should be styled modestly and natural looking. Hair should be off face, not touching shoulders, pulled back including pony tail. Headbands or pony tail elastics should be plain white, navy, or black and without adornment. Men’s facial hair should be neatly groomed.

Date: 9/19/2014
Subject: Policy for Dismissal from the Nursing Major
Motion: A student shall be dismissed from the Nursing undergraduate major for a timeframe of five years under the following conditions: Receipt of the 2nd grade below C- in required non-NUR courses (ENG W131, COM 11400, PSY 12000, BIOL 20300, CHM 10400, ENG W233, SOC S161 or ANTH E 105, FNN 30300, BIOL 22000, BIOL 20400, PCTX 20100) --OR-- Receipt of the 2nd grade below C- in required NUR and/or Nursing Elective (NUR or CHHS) courses Effective Date: October 7, 2014

Date: 5/9/2014
Subject: Revised Program Senior Level Outcomes
Motion: The following Undergraduate Program Senior Level Outcomes were revised as follows:
Critical Thinking: Formulate nursing practice decisions using critical thinking skills and evolving knowledge from nursing science, the biological and behavioral sciences, and the arts and humanities.
Evidence-Based Practice: Evaluate the effectiveness of health outcomes through the application of theory and evidence-based practice.
Communication: Employ effective communication skills in partnering with individuals, families, communities and interprofessional health care teams to design and provide safe, evidence based patient-centered care
Effective Date: Fall 2014

Date: 5/9/2014
Subject: Open Electives-C8
Motion: In order to meet the general education requirements, nursing students will choose from the Category 8 electives for the three credit open elective in the eight semester.
Effective Date: Fall 2014

Date: 5/9/2014
Subject: Credit hour change for NUR 37700; Applied Pharmacology in Nursing; NUR 34400 change in semester
Motion: NUR 37700 Professional Seminar II: Concepts and Trends in Healthcare Delivery will become a two credit hour course instead of three credit hours. Applied Pharmacology in Nursing will be added as a one credit hour course required of all undergraduate nursing students, including RN to BS students, who enroll into the nursing program Fall 2014 and thereafter. The one credit Applied Pharmacology in Nursing course will be added to the sixth semester. NUR 34400 Introduction Healthcare Informatics will be moved to the fifth semester.
Effective Date: Fall 2014

Date: 2/21/2014
Subject: NUR 10300
Motion: Students who drop NUR 11500 and/or NUR 13000 may continue taking NUR 10300 in the same semester.
Effective Date: Fall 2014
Policies 2013

Date: 11/15/2013
Subject: E-Portfolio/Reflective Assignment
Motion: The e-portfolio requirement for NUR 42300 will be discontinued and replaced with a reflective paper assignment. Item rationale assignments required for the e-portfolio in each of the courses will be replaced with a reflective paper assignment that covers program outcomes.
Effective Date: Replaces policy 5/8/2012 E-Portfolio.
Effective Spring 2014

Date: 9/3/2013
Subject: Elective Nursing Course
Motion: Demystifying Diagnostics is a new one-credit hour nursing elective course that will be offered to Registered Nurses or generic undergraduate nursing students who have completed NUR 41800 and NUR 44200. Registered Nurses who successfully complete the course with a grade of C or higher may apply the credit toward the RN to BS program. All students taking the course may elect to take it with the fee established for receiving credit or non-credit.
Effective Date: Fall 2013

Date: 8/23/2013
Subject: RN to B.S. Students Completion of Courses
Motion: RN to B.S. students may complete elective courses in the summer session after completing their clinical and professional seminar courses in the spring semester.
Effective Date: Fall 2013

Date: 1/25/2013
Subject: Proctored Pharmacology Exam
Motion: The ATI proctored Pharmacology Exam will be offered in NUR 36800. If a student achieves a level 2 or higher, the student is considered to have completed the requirement. If the level 2 has not been attained, the student has until Friday of the week prior to the beginning date of NUR 41800 or NUR 44200 to meet the requirement. If level 2 was not achieved by the Friday of the week prior to the beginning date of NUR 41800 or 44200, the student will be dropped from NUR 41800 and/or NUR 44200. The faculty will report to the advisers any students who do not meet the level 2 requirements.
Effective Date: Spring 2013

Policies 2012

Date: 9/14/2012
Subject: Discontinuing LPN-B.S. Track
Motion: The nursing program will no longer continue the LPN-B.S. track. LPNs will be directed into admission to our generic B.S. program. LPNs have an opportunity to validate course credit for NUR 11500 and NUR 13000 after acceptance into the program.
Effective Date: Fall 2012

Date: 9/14/2012
Subject: Validating Previous Knowledge and Experience
Motion: Students admitted to the nursing program may challenge courses by validating previous knowledge and experience according to the following requirements: A. Contact a nursing advisor for specific information and department guidelines. B. In all cases, eligibility for a challenge examination; the type of examination; testing procedures, date, time, and location; and evaluation of the performance will be determined by the IPFW Department.
of Nursing faculty. C. Decisions made by the department faculty with respect to the above are final. Only one attempt at an authorized challenge examination may be made. D. RN-B.S. students who are certified by a recognized nursing organization may seek credit toward a nursing elective. Certain certificates may be used as credit for required nursing courses.

Effective Date: Fall 2012

Date: 9/6/2012
Subject: Proctored Make-Up Tests Require Photo Identification
Motion: Students will have to provide photo identification prior to taking a make-up test proctored by lab personnel, including math tests for clinical courses.
Effective Date: 9/6/2012

Date: 5/8/2012
Subject: Grade Rounding
Motion: The student must achieve 75% on exams without rounding to pass a nursing course. There will be no rounding of grades on exams or the final course grade even though the student earns a 75% accumulative exams score.
Effective Date: Fall 2012

Date: 4/9/2012
Subject: Demonstrating Competency Policy for Students Out of the Nursing Program
Motion: If a student is out of the program for two consecutive semesters or more, the student must demonstrate theory and skill competencies in all previously completed clinical nursing courses by successfully passing proctored and non-proctored ATI exams, NUR 13000 Essential Clinical Skills, and selected simulations that demonstrate competency. Students may retake the ATI exam per department policy.
Effective Date: Fall 2012

Date: 2/3/2012
Subject: Hepatitis B Series
Motion: The hepatitis B vaccination series is required according to the current CDC guidelines for a 3-dose series of hepatitis B vaccine. “The second dose should be administered 1 month after the first dose; the third dose should be given at least 2 months after the second dose (and at least 4 months after the first dose). If the student has not completed the 3rd dose at the time of admission to the nursing program and the student’s healthcare provider prefers to administer a third dose six months after the second dose, then the student will need to obtain a hepatitis titer after 30 days of the second dose and provide the titer results. The student will need to bring proof of receiving the third dose after receiving it at the sixth month timeframe.
Effective Date: Fall 2012, In addition to 12/1/2011 policy “Hepatitis B”

Date: 2/3/2012
Subject: Mantoux Testing
Motion: The nursing program will require chest X-rays for positive reactors to the Mantoux test according to the CDC guidelines: The student with a positive reaction will need a chest x-ray as part of the initial medical evaluation, but no subsequent X-rays are required unless indicated (i.e. comes in contact with a person who has TB or has current signs or symptoms).
Effective Date: Fall 2012

Policies 2011

Date: 12/2/2011
Subject: Eight Hour Timeframe Between Work and Clinical Attendance
Motion: Students enrolled in clinical courses will sign an agreement in each of their clinical courses that they will allow a period of at least eight hours since the end of their last work shift before attending their clinical.
Effective Date: Spring 2012

Date: 12/1/2011
Subject: Hepatitis B
Motion: Students applying to the nursing program will need to complete the Hepatitis B series of vaccinations or submit a note from their healthcare provider indicating reason for declining the immunization. Students declining the immunization will need to sign a declination form. Students who have received the first and second dose and need to receive the third dose of Hepatitis B will be considered for admission on a one on one basis with the nursing department administration.
Effective Date: December 1, 2012

Date: 11/4/2011
Subject: Two D Policy
Motion: Majority vote to continue with the current two D policy: If a student earns less than a C- in any pre-nursing or nursing courses, the student will be dismissed from the nursing program for a timeframe of five years.
Effective Date: Fall 2011 (See 5-20-09 Academic Regulations Clarification of C- grades policy).

Date: 10/14/2011
Subject: Required Flu Immunizations
Motion: In order to be in compliance with healthcare organizations’ current processes in planning for all nursing care providers to attain an annual flu vaccination, all nursing students will be required to obtain a flu vaccine or provide a note from the student’s healthcare provider indicating that the student should not receive the vaccine because of health reasons. Those students not receiving the flu vaccine and providing a note from their healthcare provider should also sign a declination form in the nursing department. The due dates for flu vaccinations will be determined by the nursing department each fall semester.
Effective Date: Fall 2011

Date: 3/31/2011
Subject: Revised Professional Misconduct Policy
Motion: Professional Misconduct Policy
Students may be failed in a nursing course and/or dismissed from the Nursing Program for unprofessional conduct that jeopardizes the health and/or safety of patients/clients and/or others or has a potentially detrimental effect on the Department of Nursing. Due to the serious consequence of certain unprofessional behaviors, procedures for dismissal from the program may be initiated. If the student is in a clinical setting at the time that professional misconduct occurs, the person will be immediately removed from the site. The student will be suspended from all clinical settings pending the outcome of the disciplinary process.

Students are held to the standards of the Indiana Nurse Practice Act and as such, they are liable for their own actions. Behaviors of professional misconduct occurring at any time while the person is a student in the nursing program may result in disciplinary action that include, but are not limited to:
• Patient Abandonment and/or neglect
• Commission of fraudulent acts/documentation
• Breaching a patient’s rights to privacy and confidentiality by disclosing Protected Health Information as specified by HIPAA regulation.
• This breach includes accessing an electronic health record in an area where others can view it, printing of information at an unauthorized printer, and sharing patient or agency information details in social networking tools such as Facebook, Twitter, texting or photographing with a cell phone, and other electronic devices
• Accessing or documenting in the Cerner AES account of another student
• Theft of property from a clinical agency, client, others, or IPFW
• Disorderly conduct
• Verbal abuse that involves an expressed or implied threat to a person’s safety
• Physical abuse of any person
• Possession of a weapon
• Use, under the influence, and/or possession of a controlled substance while at a clinical agency
• Use, under the influence, and/or possession of alcohol while at a clinical agency
• Failure to report conviction of criminal activity
• Failed drug screen and/or possession of drugs or controlled substances
• Failed drug screen and/or possession of alcohol while at a clinical agency
• Failure to report an arrest with felony charges or a felony conviction.
Revised 03/2011
Effective Date: 3/31/2011
Policies 2010

Date: 12/10/2010
Subject: ATI Pharmacology Proctored Exam
Motion: Beginning the Spring 2011 semester, the Pharmacology proctored exam will be moved from the NUR 33600 course to the NUR 44200 course.
Effective Date: 1/10/2011 (Replaces 1/9/2009 ATI Testing Benchmarks policy).

Date: 12/10/2010
Subject: ATI TEAS V Entrance Exam
Motion: For the Spring 2011 semester, the national mean for the ATI TEAS V Exam will be accepted as the benchmark score considered as one criteria for students who are applying for admission to the nursing program.
Effective Date: 12/10/2010

Date: 8/16/2010
Subject: Summer Course Mandatory Requirement
Motion: A student who has not met clinical agency requirements within the required time frame of August 15 (fall semester), December 15 (spring semester, May 15 (summer I and II) will be dropped from clinical course(s) and any co- requisite course(s). Being removed from the course(s) may result in forfeit of financial aid.
Neither class nor clinical space will be held for any student dropped by the deadline of August 15 (fall semester), December 15 (spring semester, or May 1 (summer I and II), therefore, if the class is full you will not be able to register.
THIS POLICY WILL BE FOLLOWED BY THE DEPARTMENT OF NURSING.
Effective Date: 8/16/2010 policy

Date: 2/02/2010
Subject: Academic Clarifications of grades below C-
Motion: If a student earns a grade below C- in a required undergraduate nursing course, enrollment in another undergraduate nursing course with a prerequisite of the failed course, cannot be completed until the failed course is repeated with an earned grade of C- or better.
If a student earns a grade below C- in any undergraduate nursing course, that course must be repeated in the subsequent semester and earn a grade of C- or better.
If a student fails a required course and is registered to take NUR 240/241 in the summer, the student will be dropped from NUR 240/241. The student must complete the failed course in the following fall semester prior to proceeding in the curriculum.
If a student earns below a C- in a clinical nursing course and if prerequisites are met, more than one clinical course per semester may be taken
If a student earns a grade below C- in any course (required or elective) in the undergraduate nursing curriculum, that course must be repeated with an earned grade of C- or better.
If a student earns two grades below C- in the same or any combination of two courses required in the undergraduate nursing curriculum, the student will be dismissed from the nursing program. A student who has been dismissed from the undergraduate nursing program is ineligible for admission into the undergraduate nursing program for a period of five years from the date of dismissal.
Dismissal from the undergraduate nursing program may result at any time if it is determined that inappropriate behavior of a nursing student places clients, other students, staff, faculty, or the university at risk for any harm or potential harm.
A student who is dismissed may appeal the decision to the Department of Nursing. If dismissed for failure to meet the university’s minimum academic standards, application for readmission must follow the procedures established by the university. The Department of Nursing does provide the Academic Renewal option.
A student, who has been dismissed from the IPFW undergraduate nursing program or any other undergraduate nursing program and is readmitted, will be dismissed from the program with a failure of any one course required in the undergraduate nursing curriculum
Effective Date: Spring 2010
Date: 1/7/2010  
Subject: Non NCLEX Content Courses and Exams  
Motion: The restriction of 75% on examinations removed from 2 upper division nursing courses: Statistics and Data Management in Healthcare and Research in Healthcare in addition to previous 8/22/08 policy that states: Restriction of 75% on examinations removed from 5 upper division nursing courses: Introduction Healthcare Informatics, nursing elective, Professional Seminar II, Professional Seminar III, Transcultural Healthcare.  
Effective Date: Spring 2010

Policies 2009

Date: 9/25/2009  
Subject: Admission to Nursing. Change in amount of pre nursing hours/courses.  
Motion: Admission to the nursing program from pre-nursing is limited and competitive. Pre-nursing applicants must meet the following requirements:  
Be admitted to IPFW as a degree seeking student.  
Complete 33 hours of pre-nursing curriculum with a grade of C- or better in each course. Courses may be repeated only one time. The pre-nursing curriculum includes:  
   - PSY 120  
   - ENG W131  
   - CHM 104 or CHM 111 and CHM 112  
   - BIOL 203  
   - COM 114  
   - ENGW233  
   - BIOL 204  
   - BIOL220  
   - NUR 309 or FNN 303  
   - SOC S161  
   - Have a minimum IPFW grade point average (GPA) of 2.5 on a 4.0 scale in the pre-nursing curriculum. The GPA is calculated on only the 33 hours of pre-nursing curriculum taken at IPFW or at other Purdue University or Indiana University campuses. Applicants are ranked based on this GPA. This GPA does not include transfer courses.  
   - A minimum GPA does not guarantee admission. The actual GPA necessary for admission varies with the GPA distribution of the applicant pool and the number of available seats for admission.  
   - Applicants are required to take a pre-admission examination. The examination is administered on specific dates and times. Applicants pay a testing fee.  
   - All transfer grades will be reviewed and evaluated in the admission process.  
   - First priority consideration for program admission will be given to students who have completed 16 or more of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. Six credit hours of a required science must be taken at a Purdue University or Indiana University campus for admission consideration.  
   - If additional seats are available, the second priority is given to students who have completed less than 16 of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. Six credit hours of a required science must be taken at a Purdue University or Indiana University campus for admission consideration.  
   - If additional seats are available, the third priority is given to students who have none of the 33 pre-nursing curriculum hours at IPFW or at other Purdue University or Indiana University campuses. In this case, the transfer GPA of the pre-nursing curriculum will be used for admission.  
Effective Date: Spring 2011

Date: 1/9/2009  
Subject: ATI testing benchmarks  
Motion: Benchmarks ATI:  
   - Proctored tests – Level II  
   - RN Comprehensive Predictor (Proctored) – 95% predicted probability of passing the NCLEX-RN  
   - Non-proctored (practice) tests – 90%
Orientation Critical Thinking Entrance (Proctored)
NUR 115 Fundamental of Nursing (Non-proctored)
NUR 130 Skills Modules
NUR 202 Pharmacology (Non-Proctored)
NUR 336 Pharmacology (Proctored)
Medical/Surgical (Non-proctored)
NUR 368 Maternal Newborn (Non-proctored)
NUR 379 Nursing Care of Children (Proctored)
NUR 418 Community Health (Non-proctored)
NUR 442 Nursing Leadership & Management (Non-proctored)
NUR 419 Medical/Surgical (Proctored)
NUR 433 RN Comprehensive Predictor (Proctored)
Critical Thinking Exit (Proctored)
Focused RN Medical/Surgical (Non-proctored)
Virtual-ATI

Proctored tests
If Level II proficiency is not earned on proctored (exception RN Comprehensive Predictor) tests:
1. Meet with the course instructor, utilize ATI review book, and take ATI practice tests.
2. Must allow at least 3 days between each retake of the test.
3. ATI student transcript must accompany test results given to the course instructor.
4. If unable to earn Level II proficiency, Incomplete (I) for course until achieve Level II proficiency (may take as many times as necessary but at students’ expense).

RN Comprehensive Predictor
If a grade of less than 95% predicted probability of passing the NCLEX-RN is earned on the RN Comprehensive Predictor, a student must:
1. Meet with the course instructor, utilize ATI review book, and take ATI practice tests.
2. Must allow at least 3 days between each retake of the test.
3. ATI student transcript must accompany test results given to the course instructor.
4. If unable to earn 95% predicted probability of passing the NCLEX-RN, Incomplete (I) for course until achieve 95% predicted probability of passing the NCLEX-RN (may take as many times as necessary but at students’ expense) on the RN Comprehensive Predictor.

Non-proctored (practice)
If a grade of less than 90% is earned on tests identified as non-proctored (practice):
1. Meet with the course instructor and utilize ATI review book.
2. Must allow at least 3 days between each retake of the test.
3. ATI student transcript must accompany test results given to the course instructor.
4. If unable to earn 90%, Incomplete (I) for course until achieve 90% in retake (as many times as necessary) of non-proctored test.

Effective Date: Spring 2009

Policies 2008

Date: 12/12/2008
Subject: Plagiarism Policy
Motion: The Plagiarism Policy of the nursing department indicates that any student who plagiarizes has committed academic dishonesty and misconduct which may lead to dismissal from the program or college. Any student who has been identified to have plagiarized will receive a zero for that assignment.
Effective Date: Spring 2009

Date: 12/12/2008
Subject: Years to complete each degree
Motion: One admitted to the nursing program—the student will complete the course of study by: Associate of
Science—completion within 4 years, Baccalaureate of Science—completion within 6 years, Baccalaureate of Science RN-B.S.—completion within 6 years
Effective Date: Spring 2009

Policies 2007

Date: 9/28/2007
Subject: NUR 377 Professional Seminar II RN-B.S. Completion
Motion: Upon admission to the RN-B.S. Completion program, NUR 377 is the first course taken. NUR 377 may NOT be taken prior to admission to the RN-B.S. Completion program.
Effective Date: Spring 2008

Date: 8/24/2007
Subject: Sequencing NUR 442, NUR 418, and NUR 419 generic B.S. program
Motion: NUR 419 Advanced Acute Care Nursing required course in the last semester of the generic B.S. program. NUR 442 Leadership in Nursing and NUR 418 Community/Public Health Nursing are prerequisites to NUR 419.
Effective Date: Fall 2007

Date: 8/24/2007
Subject: Sequencing NUR 442, NUR 418, and NUR 419 RN-B.S. Completion
Motion: Students in the RN-B.S. Completion program may take NUR 418 Community/Public Health Nursing and/or NUR 442 Leadership in Nursing with NUR 419 Advanced Acute Care Nursing in whatever sequence is most appropriate for progression. Students in the RN to B.S. must complete the three theory courses, but are only required to complete two of the three clinical components.
Effective Date: Fall 2007

Date: 4/20/2007
Subject: Drop course Withdrawal
Motion: Students who drop a nursing course when they are earning a grade below 75% and/or unsatisfactory clinical performance will have a hold placed on their record and they will not be able to register for clinical nursing (NUR) courses until the Monday following freshman registration week. Students may only withdraw from the same nursing course one time due to a grade less than 75% and/or unsatisfactory clinical performance.
Effective Date: Fall 2007

Date: 1/4/2007
Subject: Non-progression in nursing courses
Motion: If a student does not complete a clinical undergraduate nursing course or NUR 130 for two consecutive semesters or more, the student must demonstrate theory and skill competency from the last completed undergraduate nursing course before progressing.
Effective Date: Spring 2007

Date: 1/4/2007
Subject: NUR 103
Motion: As of fall 2007, NUR 103 is restricted to nursing students.
Effective Date: Fall 2007

Policies 2006

Date: 12/7/2006
Subject: Undergraduate, Clinical Attendance/Tardiness Policy
Motion: Attendance is required in all clinicals. A student must notify the instructor in advance if unable to be present in a clinical. A clinical warning will be given the first time a student fails to notify the instructor of inability to attend the clinical. A subsequent failure to notify the instructor of inability to attend a clinical will result in a clinical failure for unprofessional behavior. The student must contact the course professor to arrange for a make-up of any missed clinicals.
Clinical Tardiness
A student will be placed on clinical warning if tardy twice to the clinical experience. Subsequent tardiness to the clinical experience will result in the student failing the course for unprofessional behavior.
Effective Date: 12/7/2006

Policies 2006

Date: 8/14/2006
Subject: Declared Public Emergency Policy
Motion: In the event IPFW closes due to a declared public emergency, the following student options will be available:
All nursing undergraduate courses will continue via WebCT or alternative delivery methods: telephone, internet or U.S. mail, as long as professors and students are available.

Students may choose to complete the course work through independent study using the above communication techniques.
All assignments are available in the course manuals or in the course syllabi. Independent study can be completed by following the schedules and assignments in the manuals or syllabi.
Students may choose to take an incomplete the course.
Testing schedules will be determined after the university resumes classes to allow faculty to evaluate student needs.
Clinical hours may be acquired by a student while working in a declared public emergency in a healthcare setting.
Hours will be logged on the Declared Public Emergency Clinical Record, which is to be signed by a licensed preceptor. Hours will be counted hour for hour for the course currently being taken.
Due to the nature of the emergency, students in specialty courses (i.e. Pediatrics, Obstetrics, or Psychiatric Mental Health) who log nursing care hours do not need to be providers of care in those exact specialties.
A clinical journal will be completed by the students and turned in with the Declared Public Emergency Clinical Record.

IPFW Avian Flu
Graduate students will receive an incomplete in their courses.
Effective Date: Immediate

Date: 5/8/2006
Subject: Admission RN-B.S. Completion
Motion: Admission into the RN-B.S. nursing program requires that the applicant be a graduate of a state-accredited associate degree or diploma program in nursing and have a minimum cumulative GPA of 2.3 on a 4.0 scale. A current Indiana nursing license is required prior to taking the first clinical nursing course.

Credit required from the lower division includes:
30 credits nursing
12 credits in biological and physical sciences
Must include 3 credits of chemistry
6 credits in social sciences
3 credits in written communication skills
9 credits in electives
Effective Date: Spring 2006

Date: 5/8/2006
Subject: Transfer Students from Other Nursing Programs
Motion: Transfer students from other NLNAC or CCNE accredited RN nursing programs may be considered for admission based on availability of space.
Students must have completed 24 credit hours with a GPA of 3.5 (4.0 scale) or higher. Students who do not meet the credit or GPA requirements may be considered on an individual basis.
Applicants are required to take a pre-admission examination. The examination is administered on specific dates and times. Applicants pay a testing fee.
Effective Date: Spring 2006
Date: 5/8/2006  
Subject: Nursing Uniform  
Motion: Navy pant/skirt, navy V-neck top and navy short jacket (jacket optional) with IPFW patch on V-neck and jacket. No fragrances may be worn and all tattoos must be covered while in the clinical area. Students may wear no more than two pair of small studs in their ears. No other facial piercing is allowed on the clinical setting. No clogs, no open-toed shoes are allowed on clinical. Shoes must be all white.  
Effective Date: Spring 2006

Date: 5/8/2006  
Subject: NUR 103, NUR 377, NUR 423, No challenge exams  
Motion: The professional seminar series NUR 103, 377, and 423 may not be challenged by test proficiency.  
Effective Date: Spring 2006

Date: 5/8/2006  
Subject: NUR 103  
Motion: Pre-nursing students are eligible to take NUR 103.  
Effective Date: Spring 2006

Policies 2004

Date: 5/7/2004  
Subject: Mandatory student meeting with below 75% on exam  
Motion: Students who earn a score below 75% on a course exam must meet with the professor prior to the next exam. If the student fails to meet with the professor, the student will not be allowed to take the next exam.  
Effective Date: Summer 2004

Policies 2003

Date: 5/12/2003  
Subject: Student not taking clinical nursing course semester of admission  
Motion: Students who do not take a clinical nursing course the semester of admission to the nursing program will be dropped from the program and must repeat the admission process to re-enter.  
Effective Date: Summer 2003

Subject: Clarification of uniform policy  
Motion: Students may wear white turtleneck white turtleneck or T-shirt with round neck under uniform top. No white sleeves may show below uniform sleeve. If long sleeves are worn, must be covered by uniform lab jacket.  
Effective Date: Spring 2003

Policies 2000

Date: 9/29/2000  
Subject: Chemistry  
Motion: Students who have taken CHM 111 must take either CHM 112 or the new course (CHM 104) to complete their chemistry requirement. Students admitted to the A.S. program as of fall 2001 will follow the revised curriculum containing 3 credits of chemistry.  
Effective Date: Fall 2001

Date: 5/9/2000  
Subject: Non-nursing courses  
Motion: FNN credits good for ten years.  
Effective Date: 5/9/2000

Im 5/08, 12/08, 1/09, 5/09, 4/10  
r 8/10, 1/10, 3/11, 9/11, 12/11, 2/12, 4/12, 11/12, 8/14, 7/15
Annual Personal Disclosure for Students

Date Submitted: _________________________________________________

Student’s Name printed: ___________________________________________

Student’s signature: ______________________________________________

Upon admission to the Department of Nursing, students have completed the required background checks using either Student Check or Certified Background. These background companies included checks of driving record, background and OIG/GSA/SDN.

Following the initial requirements, all students will respond to the following questions on an annual basis. Failure to provide accurate truthful responses will subject student to possible removal from clinical experiences. Affirmative responses/ violations will be forwarded to the clinical agency representative for review.

Have you (the student) pleaded guilty, “no contest” or been convicted of a crime or violated parole since the date background reports were first submitted at the beginning of your clinicals?

YES___ NO ___

If YES, name the crime or parole violation, the name of the court and any sentence or punishment. (A “YES” answer is not an automatic bar to continued clinicals but must be reviewed.)

Created: 4/30/09, Revised 11/10
Your Health Record indicates that you are a positive reactor to the TB skin test. A positive skin test generally means that at some point in time contact has been made with the tuberculosis bacteria.

According to the policy of the Department of Nursing, you will need to return this TB Surveillance Record annually to the secretary in the HHS Student Success Center each year by August 15 (fall semester), December 15 (spring semester), May 1 (summer I and II). Review the following questionnaire and indicate any symptoms which apply. If at any time during the year symptoms develop, contact your health care provider and the secretary in the Department of Nursing.

Have you experienced any of the following symptoms?

- [ ] Yes  [ ] No
- ____ ____ Productive or prolonged cough
- ____ ____ Bloody Sputum
- ____ ____ Prolonged unexplained low-grade fever
- ____ ____ Night Sweats
- ____ ____ Loss of appetite
- ____ ____ Weight loss/weakness
- ____ ____ Chest pain
- ____ ____ Shortness of breath
