Walt Branson called the ninety-seventh meeting of the Committee to order at 9 A.M. in ET 206. Other members present: Deb Conklin, Jack Dahl, Cyndy Elick, Mark Franke, Bob Kostrubanic, Marc Lipman, George McClellan, Bill McKinney, and Cheryl Truesdell.

Approval of Minutes

Minutes from the November 20 meeting were approved.

myIPFW Content Development Policy

Sue DeChant presented a second draft of the proposed policy. The group asked for clearer distinction to be made between tabs and channels and approved the policy pending this revision.

Other

Walt Branson reported that IPFW would be joining the I-Light network. Walt Branson also reported that IU has reached a groundbreaking agreement with Adobe for university and personal use of their software products. Most of IPFW’s participation fee can be met by redirecting funds currently used for Adobe licensing in ITS, VCD, and Publications. The group endorsed this approach.

Cheryl Truesdell reported that the library is receiving increasing numbers of requests for access to library resources from non-IPFW organizations and individuals. The group endorsed the library’s policy of following licensing restrictions on access, with an understanding of the special arrangements that can be made for faculty collaborations.
Updates from IT Services

Bob Kostrubanic presented several updates:

The data center upgrade during the holiday break was successful and included a new UPS, new cable, and network storage increases.

ITS has begun using student employees to supplement Help Desk staff to monitor network availability.

ITS is working with VPA on a major upgrade of the VCD labs.

ITS is working with physical plant to improve security in the telecom rooms and to remove stored materials from the rooms.

The student laptop purchase program has only led to two sales so far. A group is discussing ways to promote the program.

ITS is working with a group of faculty and staff to identify ways to provide data visualization and modeling applications at IPFW. A collaboration with IU appears to be possible as an extension of the contract with Sony, and a trip to the IUPUI facilities is being planned.

Future Agenda Items

Discussion of proposal to establish a Web management unit (after receipt of communications consultant report)

Report on GIS software selection and funding - ARCGIS has been found to be incompatible with some network software.

Report on Breeze licensing

Report on status of ITS software development projects and process for establishing priorities

Review report on improvements in technology support for course evaluations.
