I NFORMATION TECHNOLOGY POLICY COMMITTEE

MINUTES OF THE MEETING OF MAY 15, 2008

Susan Hannah called the ninety-fourth meeting of the Committee to order at 9 A.M. in ET 206. Other members present: Jack Dahl, Jim Ferguson, Bob Kostrubanic, Marc Lipman, George McClellan, Jeff Nowak, Judie Violette, and Gerard Voland.

Approval of Minutes

Minutes from the April 17 meeting were approved.

Update on IPFW Web Site

Norma Endersby distributed a report on conversion of web pages to the new template and on implementation of Serena Collage. All of the centrally-maintained web pages have been converted to use the new template. The project took 2.5 years and was completed in November 2007.

The Serena Collage implementation is on hold because of changes in marketing of the product. Alternatives are being researched. The project is now referred to as “Web CMS” since it is being approached as a process to select a Web Content Management System. Once a product is installed, the project time line is projected at two years. A further update will be given to ITPC in the fall.

myIPFW Targeted Announcement Policy

Kari Smith presented a proposed policy for use of the announcements system embedded in the myIPFW portal. ITPC members noted that this was related to the work of a committee on a campus event calendar. The group recommended that the portal not be the place for announcements of events, instead placing all such announcements in the forthcoming campus calendar. The proposed “Announcement Policy” will be revised.

PC Demonstration Classroom Scheduling

With the implementation of the Mac Lab, there will no longer be a computer classroom with special scheduling policies for demonstration sessions. The committee agreed to repeal the old scheduling policy. Bob Kostrubanic reported that all of the stations from the former demonstration classroom have been relocated to other open use computer labs.
**Application Development Priority Establishment**

Bob Kostrubanic reported that a process for establishing priorities for application development will be brought to ITPC in the fall.

**Termination of SUVON services**

Judie Violette asked whether any alternatives had been identified to avoid long distance charges for calls formerly made via SUVON. Bob Kostrubanic reported that no alternative had been found.

**Updates from ITS**

Bob Kostrubanic reported that security on the IPFW network is being tightened and moved to the “edge” of the network.

**Future Agenda Items**

Discussion of proposal to establish a Web management unit (after receipt of communications consultant report)

Report on GIS software selection and funding - ARCGIS has been found to be incompatible with some network software.

Report on Breeze licensing

Report on status of ITS software development projects and process for establishing priorities

Review report on improvements in technology support for course evaluations.

Update from Norma Endersby on Web CMS project.

Consideration of revised portal “Announcements Policy”
