Walt Branson called the eighty-fifth meeting of the Committee to order at 9 A.M. in ET 206. Other members present: Jack Dahl, Bob Kostrubanic, Marc Lipman, Edna Neal, and Judie Violette. Gail Rathbun was a guest for the meeting.

### Approval of Minutes
Minutes from the April 19 meeting were approved.

### Instructional Technology Coordinating Committee Report
Gail Rathbun distributed copies of the subcommittee’s report. ITPC members suggested that the subcommittee develop a brochure describing technology resources for students, noted that this does overlap with information about academic support services, and suggested that the initiative be coordinated with the SOAR committee.

### Guest Accounts for Wireless Access
Edna Neal distributed a May 16 draft listing of places and staff members who would be authorized to establish guest wireless accounts. Bob Kostrubanic reported that the new server is scheduled to go into production in June. The list of places and staff members, including alternates, will be updated and provided to ITS so that training can be arranged. Bob Kostrubanic will update the draft Service Level Agreement to reflect the current list of places for account authorization.

### Emergency Access to Employee E-Mail
Bob Kostrubanic distributed a May 16 update to the Standards, Practices, and Policies document on “Guidelines Governing Critical Access to Employee’s IT Accounts.” The update includes suggestions made by ITPC members at last month’s meeting. He also noted that discussions are underway about outsourcing of some services, possibly including student e-mail, and that this might require further updates to the “critical access” document.
Report on Utilization of the Student Lab 24-hour access experiment

In response to the high level of importance/low satisfaction found in the recent Noel-Levitz survey for access to open computing labs, the Walb lab was opened for 24-hour access the week before and the week of final exams for spring semester. Bob Kostrubanic distributed a utilization report and a report of the costs for security during the extended hours. He will provide a separate report on the number of “active accounts” by hour.

Strategic Goals and Initiatives for Information Technology

Draft 3 was distributed for comment. Committee members were asked to review the draft for coverage of major initiatives and the key metrics. Judie Violette also distributed a version of the document, including initiatives, actions, and metrics. Members were asked to use Judie’s version to identify top priorities for next year in each area, and to send updates to Jack Dahl.

Other

Bob Kostrubanic reported that consideration is being given to providing wireless connections to classroom projectors.

Future Agenda Items

Updates to Draft 3JV of the Strategic Goals and Initiatives Document
Further review of the utilization of the 24-hour lab initiative in May, 2007
Discussion of proposal to establish a Web management unit (after receipt of communications consultant report)
Report on GIS software selection and funding - ARCGIS has been found to be incompatible with some network software.
Report on Breeze licensing
Report on status of ITS software development projects and process for establishing priorities
Review report on improvements in technology support for course evaluations.
