Jack Dahl called the seventy-first meeting of the Committee to order at 9 A.M. in ET 206. Other members present: Tiff Adkins, Deb Conklin, Jim Ferguson, Mark Franke, Bob Kostrubanic, Judie Violette, and Gerard Voland.

**Approval of Minutes**
Minutes from the May 19 meeting were approved.

**Survey Software Recommendation**
Gail Rathbun reported on the activities of the ad hoc committee formed to address survey software needs in both administrative and instructional areas. The Scantron process will continue to be used for student evaluations of faculty, and paper-based surveys will still be needed for use in non-computer settings. Seven products were considered for Web-based surveys. Web Surveyor was chosen, and Continuing Studies has agreed to provide initial funding. Five concurrent developers will be allowed, with an unlimited number of surveys and unlimited numbers of respondents. Training will be provided, starting in October. MyIPFW will be used frequently as the means of soliciting responses to surveys. The software can support population-driven surveys, with follow up processes for non-responders. Human Subjects clearance will often be an issue. Informing respondents of the purpose of the survey should be considered. CELT will also present information on improving survey design.

**Mass Communication Policy and Guidelines**
Jack Dahl distributed the latest draft of the policy statement. One question was asked about whether the Student Life office publishes anything about the topic. (They do not.) The group approved the draft for presentation to the Chancellor’s Executive Staff.
SSN/Security Processes
Jim Ferguson reported on a recent meeting in West Lafayette in which President Jischke made the elimination of SSN’s the top priority for systems maintenance. This priority includes IPFW systems, and efforts to identify current usage are underway. Bob Kostrubanic added that the university’s obligations to protect privacy are increasing and that the intended solution is the establishment of a global IPFW ID system. Linkages with the new IU ID system are also being reviewed.

Other
Bob Kostrubanic reported that commitments have been made for nearly all of the PC’s being removed from the student labs in the summer upgrade process.
Bob Kostrubanic also reported that Web site improvements are being studied, including selection of a content-management software package and search engine improvements/replacement.
Bob Kostrubanic also reported that the Banner 7 upgrade is being planned for March, 2006, with off-site backup files maintained at Indiana Data Center.
