Walt Branson called the sixty-fourth meeting of the Committee to order at 9 A.M. in ET 206.
Other members present: Tiff Adkins, Deb Conklin, Jack Dahl, Jim Ferguson, Mark Franke, Susan Hannah, Bob Kostrubanic, Marc Lipman, Edna Neal, Judie Violette, and Gerard Voland.

**Approval of Minutes**
Minutes from the October 21 meeting were approved.

**DECCO Update**
Susan Hannah reported that DECCO has formed subcommittees on several topics, including faculty support, interactivity in courses, student services and orientation for distance students, instructional software tools, and assessment. LEAD grants are being awarded to provide funding for innovative use of technology in large classes. A showcase is being planned for spring semester in order to demonstrate the results of the projects. Two projects were funded in the first round, and four more have been funded in the second round. IT Services has also established a database and support service for instructional use.

**Student E-mail Update**
Mark Franke reported that the myIPFW site has been launched, with enhancements to be implemented as they are completed. A mailing has been sent to all students to announce the service. The team is still working on activating accounts at the time of admission. An e-mail oversight committee has been formed to filter the use of the system for mass mailings, with Patrick McLaughlin, Donna Bialik, and Mike Kanning serving on the committee. A single-signon for faculty and staff will be addressed later.

**One Purdue Update**
Bob Kostrubanic reported that “One Purdue” is the working name for the Purdue ERP initiative. The project team has created scenarios to be addressed by the vendors in the next four weeks. Site visits will then be made to universities using those systems. A vendor recommendation will be made at the February Trustee meeting. The trustees are being asked now to approve the general project plan and the financing plan. The formal kickoff of the project will take place in July, 2005.
Bob Kostrubanic reported that IT Services is installing videoconferencing equipment in ET 351. The room will serve ERP needs and ETCS students, faculty, and industrial partners. It can also be used to link to area high schools.

Bob Kostrubanic reported that wiring plans for NIIC and the Music building are being developed. Work is also underway on upgrading Gates, and the South wing of Kettler upgrade is scheduled for the holiday break.

The new campus homepage is scheduled for implementation in December.

The WebCT backup system will be located in Indianapolis. Details of the arrangement and standards for restoring service are being developed.
