Susan Hannah called the fifty-first meeting of the Committee to order at 9:00 in ET 206. Other members present: Walt Branson, Deb Conklin, Jack Dahl, Jim Ferguson, Mark Franke, Marge Kimble, Bob Kostrubanic, Wayne Unsell, Judie Violette, John Wellington.

**Approval of Minutes**

Minutes from the March 20 meeting were corrected and approved.

**Laptop Computers for Students (and employees)**

Bob Kostrubanic distributed copies of possible laptop plans and reported that he is planning for a final presentation at the May meeting. Three levels of program will be presented, with cost estimates and additional information about programs at other schools.

Susan Hannah will meet with Marge Kimble, Deb Conklin, Wayne Unsell, and John Wellington to develop plans for program-based computer ownership requirements.

Mark Franke and Jim Ferguson will review administrative office applications, including student access to SIS via PDA devices.

**Protection of Consumer Financial Data**

Mark Franke reported on new Federal Trade Commission requirements for developing a policy and naming a coordinator responsible for administering the financial data privacy policy. Mark and Bob Kostrubanic will name a group to develop additional details.

**Workstation Standards**

Susan Hannah expressed concern about changes in the minimum standards that have been announced without ITPC discussion. Bob Kostrubanic noted that the upgrade information had been announced, but the impact on re-use of current machines was not clear. The discussion concluded that future recommendations for changes in minimum workstation standards should be accompanied by a cost estimate for replacement of machines that will be declared obsolete.
**Progress Reports**

*Part I*

- **Wireless access:**
The overall campus plan and current status will be presented at the May meeting.

- **Portal Development:**
A committee will be formed to plan for development of a campus portal since the infrastructure will now support a project with significantly less cost than had been estimated.

- **GIS Software:**
Bob Kostrubanic will provide a report at the next meeting on progress toward selection of GIS software for the campus.

- **Elimination of Social Security Numbers**
Jim Ferguson reported that Purdue has released a draft policy on use of SSN's. The draft includes an intent to eliminate use of SSN's over the next five years in all areas that do not have specific legal requirements for use of the number. Human Resources will be developing an IPFW survey to identify local systems that use the number.
