10.0 DEGREES. Academic units may impose stricter requirements than those listed in this section but may not waive the following minimum standards. Provided these minimum standards are satisfied, adjustments to any degree requirement may be made by the unit establishing that requirement.

10.1 Degrees offered. For completion of undergraduate plans of study of at least 60 credits, associate degrees may be conferred. For completion of undergraduate plans of study of at least 120 credits, bachelor's degrees may be conferred.
10.2 Requirements for degrees. Any new requirement for a degree, certificate, or pre-major program may not be applied to currently enrolled students in these programs if it would increase the number of semester hours or the number of semesters required for completion of the program.

The school/division/department committee in charge of curriculum matters may refuse to accept as credit toward graduation any course which was completed 10 or more years previously. Former students shall be notified of all such decisions upon reentering or when the credit is determined to be unacceptable.

To gain any associate or bachelor's degree from IPFW, the student shall satisfy the following requirements:
