In Memoriam

Wade A. Fredrick

April 21, 1933 – September 5, 2015

Wade A. Fredrick was Executive Director Emeritus of Continuing Studies at IPFW. A gifted athlete and outstanding student he graduated from Churubusco High School in 1950. He attended Wabash College on a four year academic-athletic scholarship. Majoring in Latin and the Humanities, he played varsity baseball and basketball before graduating with honors in 1954. From 1955 to 1957 he served in the military in Japan and Korea. Returning from Korea in January of 1957 he taught English and coached basketball at North Side High School, while earning his Master’s degree from Ball State University in 1958. In May of 1963, while teaching, he became a representative of the Columbus Life Insurance Company and completed the Chartered Life Underwriter (CLU) designation.

In 1966 he accepted a position in administration from Indiana University with the newly created Division of General and Technical Studies (known as DGTS). When DGTS merged with the campus in 1982, he worked in development at IPFW until 1983 when he became the Executive Director of what would become, the Division of Continuing Studies. Under Wade’s leadership, enrollment in continuing education grew to 13,000 (225% increase from ‘82), and courses were taught in the TV studio, while others followed with video, PBS, and Comcast Cable 56-aired programming. Training programs for GM and Indiana Michigan employees were developed. Wade will always be remembered for a quick joke, a caring attitude for his employees, and his professional dedication to IPFW. Wade Fredrick retired from IPFW in 1997 as Executive Director Emeritus of Continuing Studies.

During his retirement, he and his wife of 22 years, Shirley, traveled and he played a lot of golf. His parents and younger brother preceded him in death. He is survived by his loving wife, children, Mark (Peggy) Fredrick and Valerie Null (an IPFW employee); stepchildren, Frank Leto, John (Christine) Leto, and Mary (Sergio) Pareja; 11 grandchildren; 2 great-grandchildren; and many nieces and nephews and dear friends.
MEMORANDUM

TO:                  Fort Wayne Senate Executive Committee
FROM:  David Liu, Chair
        Curriculum Review Subcommittee
DATE:           September 15, 2015
SUBJ:             Approval of replacement member of the Curriculum Review Subcommittee

WHEREAS, The Bylaws of the Senate provide (5.1.2.) that “… Senate Committees … shall have the power to fill committee vacancies for the remainder of an academic year, subject to Senate approval at its next regular meeting”; and

WHEREAS, There is one vacancy on the Curriculum Review Subcommittee with no representation from the Doermer School of Business; and

WHEREAS, The chair of the Curriculum Review Subcommittee has invited Dr. Swathi Baddam of the Doermer School of Business to serve as a replacement member for the 2015-2016 academic year;

BE IT RESOLVED, That the chair of the Curriculum Review Subcommittee requests the Executive Committee to forward this appointment to the Senate for approval.
MEMORANDUM

TO: Fort Wayne Senate Executive Committee

FROM: Jeff Malanson, Chair
       Budgetary Affairs Subcommittee

DATE: September 28, 2015

SUBJ: Approval of replacement members of the Budgetary Affairs Subcommittee

WHEREAS, The Bylaws of the Senate provide (5.1.2.) that “Senate Committees . . . shall have the power to fill committee vacancies for the remainder of an academic year, subject to Senate approval at its next regular meeting”; and

WHEREAS, There are three vacancies on the Budgetary Affairs Subcommittee; and

WHEREAS, The Budgetary Affairs Subcommittee voted on August 31, 2015 to appoint Dr. Hui Di of the Department of Accounting and Finance in the Doermer School of Business to serve as a replacement member for the 2015-2016 academic year; and

WHEREAS, The Budgetary Affairs Subcommittee voted on August 31, 2015 to appoint Dr. Jordan Marshall of the Department of Biology in the College of Arts and Sciences to serve as a replacement member for the 2015-2016 academic year; and

WHEREAS, The Budgetary Affairs Subcommittee voted on September 28, 2015 to appoint Dr. Nurgul Aitalieva of the Department of Public Policy in the College of Education and Public Policy as a replacement member for the 2015-2016 academic year;

BE IT RESOLVED, That the Budgetary Affairs Subcommittee requests the Executive Committee to forward these appointments to the Senate for approval.

VI. The Assessment Council 9

VII. Appendices 10-24
The Plan for the Assessment  
Of Student Academic Achievement

I. Introduction

The plan for assessing and documenting student academic achievement is the result of enabling legislation adopted by the Fort Wayne Senate (SD 98-7), November 9, 1992, upon recommendation of the Educational Policy Committee. The implementation of the plan for assessment of student academic achievement was further defined in SD 94-13 which was adopted 12-12-94 and amended 2- 10-97. The policy included a plan for assessing the general education program, administering assessment programs for degree and certificate programs, and forming an Assessment Council as a successor to the Steering Committee for Assessment of Student Academic Achievement (SCASAA).

SD 98-22 updated SD 94-13 and in May 2003, SD 03-02 was approved to amend SD 98-22. Advances in assessment practice and changes in both Regional Accreditation Requirements and Professional Accreditation Practices since 2003 and changes in responsibility for general education assessment at IPFW require changes the institutional assessment plan.

The assessment plan described in this document reflects best current practices in assessment, emphasizes a strategy that integrates assessment in the teaching and learning process to improve student achievement relative to stated student learning outcomes (SLOs), articulates a consistent assessment framework for all academic programs, and aligns assessment of student learning from the IPFW Baccalaureate Framework through the College and Academic Program Outcomes to course level assessment of student learning.

II. Mission and Goals

Colleges, academic departments and programs define academic goals relative to mission, consistent with academic standards and practices defined by disciplinary, interdisciplinary and professional communities within and outside of the university and aligned with the IPFW Baccalaureate Framework. Student Learning Outcomes (SLOs) operationalize academic learning goals through defining knowledge, skills and values expected of students as specific and measurable statements. Assessment of Student Learning examines how and/or the extent to which students achieve SLOs. Conclusions about the achievement of program goals, obtained through assessment of student learning are expected
to lead to the improvement of academic programs and continual improvement of student learning relative to SLOs defined by colleges, academic departments and programs. The IPFW Assessment Plan provides a common framework for programmatic assessment of student learning for all colleges, academic departments and programs at IPFW.

III. The IPFW Assessment Plan

The IPFW Plan for the Assessment of Student Academic Achievement is a framework for assessing student learning at IPFW. The Plan builds on the stated Mission and Goals to document student academic achievement in all academic programs, including the general education program, certificate programs and degree programs. The IPFW Plan for the Assessment of Student Academic Achievement aligns with “Core Component 4B of Criterion Four. Teaching and Learning: Evaluation and Improvement” of the Higher Learning Commission for the Assessment of Student Learning and with requirements of Professional Accradiator’s of Academic Programs. (Appendix A).

All academic programs, including the general education program, certificate programs and degree programs will develop and implement a program level assessment plan consistent with the IPFW Principles of Assessment (Appendix B) that includes:

a. Stated Student Learning Outcomes (SLOs) for the academic program.
b. For Baccalaureate programs, a document detailing the general alignment of stated SLOs with the “Framework for the IPFW Baccalaureate Degree”.
c. A Curricular Map detailing the progression of student achievement relative to the SLOs through a core group of courses identified by the academic program.
d. Assessment of SLOs through Interim Internal Measures, External Measures and other measures specific to the academic program (Appendix C).
e. A statement of how assessment findings will be used to improve student achievement in the academic program.

Should individual colleges develop common learning outcomes for all academic programs, the College is responsible for providing their Assessment Plan to the Assessment Council for review.
IV. Annual Reports

Academic programs, including the general education program, certificate programs and degree programs will prepare an annual report of assessment findings (The Academic Department Assessment Report). Each Academic Program will submit a copy of the Academic Department Assessment Report to the office of the College Dean. Each College will establish a College Level Assessment Committee to review the Academic Department Assessment Reports guided by the IPFW Assessment Review Worksheet (Appendix D). The College Level Assessment Committee will provide a summary report detailing departmental means for all sections of the IPFW Assessment Review Worksheet and their recommendations for each Academic Unit and submit all completed IPFW Assessment Review Worksheets and the Academic Department Assessment Reports for all departments to the Assessment Council by January 15. Colleges that establish common learning outcomes for all departments will provide a college-level assessment report to the Assessment Council consistent with the framework presented in the IPFW Assessment Review Worksheet for review.

Consistent with the IPFW Assessment Review Worksheet, the Academic Department Assessment Report will include:

a. Clearly stated Programmatic Student Learning Outcomes (SLOs) defining the knowledge, skills and, where appropriate for specific academic departments, values expected of students completing the academic program.

b. A description of how the SLOs align with the IPFW Baccalaureate Framework.

c. A Curricular Map identifying the level of achievement relative to the SLOs, expected of students in common courses or experiences within the curriculum.

d. A description of assessment activities and measures for the current academic year.

e. A summary of student achievement relative to the expected SLOs for the current academic year including a summary of prior year assessment findings and a description of changes made as a result of assessment findings and feedback from the College Assessment Committee and the Assessment Council.

f. A description of how results are disseminated to faculty and other stakeholders.

g. A description of how assessment results will be used to improve the program.

The Assessment Council will review the completed College Level IPFW Assessment Review Worksheet Means and the College Level Assessment Report guided by the
Assessment Council Worksheet (Appendix E). The Assessment Council will review samples of the Academic Department Assessment Results to evaluate the quality and consistency of the College Level Assessment Report. The Assessment Council reserves the option to refer the College Level Assessment Report back to the College Assessment Committee if the report is incomplete or does not adequately evaluate the quality of the Academic Department Assessment Reports. The Academic Department Assessment Reports, The IPFW Assessment Review Worksheets and the Assessment Council Worksheets will be reviewed and archived to meet internal and external requirements as follows:

a. Each Academic Department will complete The Academic Department Report for the academic year. The Report will be organized to align with the IPFW Assessment Review Worksheets.

b. The College will review all Academic Department Reports and complete the IPFW Assessment Review Worksheet for each Academic Department and produce a College Level Assessment Report following the College Level Assessment Reporting Framework (Appendix E).

c. The Assessment Council will review the College Level Assessment Report, College Level IPFW Assessment Review Worksheets, review a sample of the Academic Department Assessment Reports and provide a Report to each College summarizing findings on the quality and substance of assessment activities and detailing recommendations to improve the overall assessment efforts of the College.

d. The Assessment Council and Director of Assessment will provide a copy of the Assessment Council findings and recommendations to the College Dean, the College Assessment Committee and the Vice Chancellor of Academic Affairs (Appendix F).

e. The Director of Assessment will maintain an electronic archive of the College Summaries, Academic Department Assessment Reports and the completed IPFW Assessment Worksheets.

The General Education Sub-Committee will prepare a General Education Assessment Report of the general education program for review by the Assessment Council. The report will follow the guidelines established for Academic Department Assessment Reports. The Assessment Council will evaluate the General Education Assessment Report guided by the IPFW Assessment Worksheet. The Assessment Council will provide the completed IPFW Assessment Worksheet and recommendations to the General Education Sub-Committee and Vice Chancellor for Academic Affairs.
V. ADMINISTRATION OF THE PLAN

A. Purpose

The administration of the plan for assessment of student academic achievement includes monitoring compliance with the provisions of the IPFW assessment plan, reviewing the translation of assessment data into improved academic achievement in general education and in the academic majors, and proposing revisions in the campus, General Education, and program assessment plans as experience and changing academic goals warrant.

B. Responsibility

1. Responsibility for establishment of a plan for the assessment of student academic achievement is assigned to the Assessment Council by the Fort Wayne Senate.

2. Responsibility for the administration of the campus plan for the assessment of student academic achievement belongs to the Vice Chancellor for Academic Affairs and is assigned by the Vice Chancellor to a Director of Assessment or other Designee as Determined by the Vice Chancellor who shall be advised by an Assessment Council.

3. Responsibility for the department/division/program assessment plan belongs to the chair/director, through the governance processes of the department/division.

4. The College Dean is responsible for ensuring all departments, divisions and programs annually assess student learning, prepare the Academic Department Report organized consistently with and addressing all areas of The IPFW Assessment Review Worksheet. The College Dean will appoint a group of faculty members to review the Academic Department Reports and to complete IPFW Assessment Review Worksheets for all Academic Departments in the College. The Dean will submit completed Assessment Review Worksheets to the Assessment Council according to a timetable determined by the Academic Officers Committee.

5. The Chair of the General Education Sub-Committee is responsible for ensuring the General Education Program is assessed annually. The General Education Sub-Committee is responsible for preparing the Academic Department Report for the General Education Program annually and submitting the report to the Academic Council for review according to a timetable determined by the General Education Sub-committee.

VI. The Assessment Council

A. Responsibilities

The Assessment Council shall review the completed IPFW Assessment
Review Worksheets for each College and complete the Assessment Council Worksheet (Appendix E) for each College. The Council will review a sample of Academic Department Assessment Reports. Based upon the review, the council shall also make recommendations to the Vice Chancellor, the Educational Policy Committee, colleges, academic departments, or other university committees and councils, as appropriate. Recommendations to the EPC should relate to how the assessment plan should be amended and recommendations to the VICE CHANCELLOR FOR ACADEMIC AFFAIRS should relate to how IPFW should allocate resources in the short- and long-term to advance student academic achievement. Recommendations to colleges, academic departments, and to departments/programs that do not report through a college should address possibilities for enhancing the units’ assessment activities, overall process, curricular alignment, and progress in improving student achievement relative to stated learning outcomes. In addition, the council shall incorporate its findings and recommendations in an annual report through the Educational Policy Committee to the Fort Wayne Senate about the status of the assessment of student academic achievement and its effectiveness in improving student learning. The Assessment Council will provide training for the College Level Assessment Committees.

B. Composition

The Assessment Council shall consist of the Director of Assessment, a non-voting Academic Affairs staff member designated by the VICE CHANCELLOR FOR ACADEMIC AFFAIRS, the chair of the General Education Subcommittee, a representative from the Educational Policy Committee, a representative from each College of the University and one representative each from General Studies, Helmke Library, and Student Affairs. The College members shall be faculty with responsibility for assessment in their departments or schools, selected for renewable three-year terms by the unit’s preferred procedures. In addition, up to three “at large” members may be selected by the VICE CHANCELLOR FOR ACADEMIC AFFAIRS in consultation with the Assessment Council to address university needs.
Appendix A: Alignment of Assessment Plan with HLC Criteria 4B and the IPFW Baccalaureate Framework

1. Higher Learning Commission Criterion Four, Core Component 4 B.
   The institution demonstrates a commitment to educational achievement and improvement through ongoing assessment of student learning.

   1. The institution has clearly stated goals for student learning and effective processes for assessment of student learning and achievement of learning goals.
   2. The institution assesses achievement of the learning outcomes that it claims for its curricular and co-curricular programs.
   3. The institution uses the information gained from assessment to improve student learning.
   4. The institution’s processes and methodologies to assess student learning reflect good practice, including the substantial participation of faculty and other instructional staff members.

2. IPFW Baccalaureate Framework.

   The IPFW faculty has identified six foundations of baccalaureate education.

   **Acquisition of Knowledge**
   Students will demonstrate breadth of knowledge across disciplines and depth of knowledge in their chosen discipline. In order to do so, students must demonstrate the requisite information-seeking skills and technological competencies.

   **Application of Knowledge**
   Students will demonstrate the ability to integrate and apply that knowledge, and, in so doing, demonstrate the skills necessary for lifelong learning.

   **Personal and Professional Values**
   Students will demonstrate the highest levels of personal integrity and professional ethics.

   **A Sense of Community**
   Students will demonstrate the knowledge and skills necessary to be productive and responsible citizens and leaders in local, regional, national, and international
communities. In so doing, students will demonstrate a commitment to free and open inquiry and mutual respect across multiple cultures and perspectives.

**Critical Thinking and Problem Solving**
Students will demonstrate facility and adaptability in their approach to problem solving. In so doing, students will demonstrate critical-thinking abilities and familiarity with quantitative and qualitative reasoning.

**Communication**
Students will demonstrate the written, oral, and multimedia skills necessary to communicate effectively in diverse settings.

These foundations provide the framework for all baccalaureate degree programs. The foundations are interdependent, with each one contributing to the integrative and holistic education offered at IPFW.
APPENDIX B. IPFW Principles of Assessment

The IPFW plan for the assessment of student academic achievement is based upon the principles of assessment established by the North Central Association, principles of sound research methodology, and principles of educational and administrative philosophy that are part of the traditions of the institution. The principles have guided the construction of the plan, are embedded in the administration of the plan, and will guide changes to reflect knowledge gained from assessment and changes in policies and circumstances at the institution.

The underlying principles are:

1. The plan is linked to the mission, goals, and objectives values, and vision of the institution.

2. The plan is institution-wide in conceptualization and scope.

3. The plan is designed to foster institutional improvement, benefiting both students and programs through intentional linkages between institutional goals, program goals, and efforts to improve students' achievement of those goals.

4. The plan is designed to ensure institutional improvement and to improve the assessment plan itself.

5. The data and conclusions generated through assessment are intended to improve the institution and programs rather than evaluate individual students.

6. The tasks of developing, administering, and improving the components of the assessment program are delegated to the unit best qualified to consider each component of the plan (See Section IV, Parts A & B for guidelines).

7. Faculty responsibility for assessment is ensured by intentional linkages between the plan and the institution's established patterns of governance and administration.

9. The assessment plan requires multiple measures of student academic achievement in order to overcome the limitations of any single source of evidence about achievement.

10. The assessment plan is considered to be dynamic rather than fixed. Experience with assessment and the effectiveness of the plan will lead to modifications by units of their plans.
APPENDIX C. Examples of Assessment Measures

1. Examples of Interim Measures
   a. Review for admission to an advanced stage of the program
   b. Assessment of Student Learning Outcomes (SLOs) measured at critical points in the curriculum (e.g. course embedded measures, projects, performances, item analysis, primary trait analysis, etc.).
   c. Portfolio reviews
   d. Curriculum embedded measures and common assignments linked to program SLOs.
   e. Mid-program examinations

2. Examples of Internal Measures at or after Graduation
   a. Comprehensive examinations (with items linked to SLOs and performance levels)
   b. Senior papers, design projects, or juried performances
   c. Portfolio reviews
   d. Capstone course measures, linked to program SLOs

3. Examples of External Measures at or after Graduation
   a. Evaluations of achievement conducted by visitors
   b. Performance on licensing, certification, and registration examinations
   c. Performance on standardized examinations
   d. Graduate and alumni evaluations of achievement of program goals
   e. Employer evaluations of achievement of program goals and of preparation of graduates
   f. Graduate and professional school acceptance rates
   g. Review of external community council
### I. Clearly Stated Programmatic Student Learning Outcomes (SLOs)

APPENDIX E: College Level Report Template for the Assessment Council Report:

The College Level Assessment Report details findings of the College Assessment Council for all Academic Departments in the College. The College Level Report Template details the organization of the report.

Section 1: Summary of Findings

The report will detail scores of each academic department for each section and subsection of the Assessment Progress Worksheet. In addition, means for each subsection across departments are reported as a separate table.

Section 2: Recommendations to the Academic Departments

The report will summarize recommendations made to each academic department as a result of the current year assessment findings.

Section 3: Results of Activities related to Prior Year Findings

The report will describe results of changes made to address prior year findings. This section includes results of student learning assessments and a summary of the impact (positive or negative) of those changes in student learning.

Section 4: Conclusions and Future Directions

The concluding section provides an overall evaluation of assessment in the College and a description of any changes in process planned to improve the quality of student learning assessment across departments in the College.
### Academic Department or Program and College

- Academic Department or Program prepares Academic Department Assessment Report organized in sections following IPFW Assessment Progress Worksheet (Appendix D)

### General Education Courses and General Education Subcommittee

- General Education Courses submit Course Level Assessments to Academic Department. Academic Department prepares assessment report by course and submits to the General Education Subcommittee for review and feedback.

### College Level Assessment Committee Reviews Academic Department Assessment Reports using IPFW Assessment Progress Worksheet to prepare College Assessment Report organized by College Level Report Template (Appendix E)

- General Education Subcommittee prepares Academic Assessment Report for General Education Program organized in sections following IPFW Assessment Progress Worksheet (Appendix D)

### Assessment Council prepares an Annual Report of Assessment Progress summarizing findings and recommendations for each College. Report and forwards report to EPC, College Level Assessment Committee, College Dean, and Vice Chancellor for Academic Affairs

- Assessment Council Reviews General Education Assessment Report using IPFW Assessment Progress Template, completes Annual Report of Assessment Progress and forwards to the General Education Subcommittee and Vice Chancellor for Academic Affairs
The Fort Wayne Senate adopted the Baccalaureate Framework in 2005 (SD 05-8). In the last couple of years, IPFW has adopted a new strategic plan, created USAP, and had its designation changed to a Multi-system Metropolitan University. In light of these changes, what is the role of the Baccalaureate Framework?

Baccalaureate Framework SD 05-8 (http://www.ipfw.edu/dotAsset/4fa85db8-2c61-4a42-8c6d-6781445745bd.pdf)

Linda Wright-Bower
Department of Music
Effective Fall 2015, the Division of Continuing Studies involuntarily reduced the appointments of some of their continuing lecturers from 1.0 to 0.75, based on a failure of those specific continuing lecturers to meet enrollment and financial targets. Significantly, these targets have been inconsistent over time, explanations for the targets do not fit the data as affected departments understand it, and the communication related to the targets and DCS’s decision to cut the courses of CLs was both one-sided and tardy. The situation of these CLs and the courses that were canceled, courses that were part of the mission and curriculum for the affected departments, highlights the negative impacts of having some continuing lecturers’ continuing employment dependent on an entirely different—and strictly profit-driven—set of concerns than those of continuing lecturers salaried out of IPFW’s general fund.

1. Taking for granted that it is desirable that faculty members at the same rank should have similar employment circumstances across campus, we should therefore work to alter the current situation in which some CLs have an obligation to contribute to their departments’ missions through teaching and service, and other CLs have this same obligation, plus the task of meeting the specific enrollment and financial targets dictated by DCS in order to keep their jobs. What is the administration’s view of the best way to standardize the working situations of continuing lecturers across campus?

2. Taking for granted that transparency in budgeting is a key value and goal at IPFW, we should therefore work to move away from the current financial model in which millions of dollars of tuition revenue are diverted from the general fund into a separate account, part of which funds DCS (and therefore the continuing lecturers paid by DCS) and part of which becomes a reserve fund. This diverting of resources creates two transparency problems: (1) there is less oversight over how the money in the reserve fund is spent; and (2) diverting millions of tuition dollars away from the general fund artificially inflates the amount of the shortfall in the general fund. What is the administration’s plan and timeline for creating a more transparent budgeting model for IPFW than the current model?
While examination of existing programs and units across campus can be seen as necessary and valuable for building on the strengths of IPFW and developing new directions as a comprehensive metropolitan university, there is a perception that the goal of USAP is to collect data that will be used to consolidate some academic programs and cut others in order to focus resources on a few special areas. There also is increasing concern that it may simply not be possible to develop a unified plan from the overwhelming multitude of data that is being collected at the level of individual units, evaluated by people who are not necessarily familiar with the individual units. So the questions are:

1. What is the goal of the USAP process?
2. Would the administration be open to considering an alternative to the USAP process such as that proposed in SD 11-24, which suggests a strategic program review-like process for all units?

SUBJ: Report on Designated Items

Listed below is a list of designated items that Executive Committee has charged other committee/subcommittees with. Executive Committee is distributing this for information only.

1. FAC- DCS Continuing Lecturers
2. URPC and BAS- DCS Budget
3. EPC- Course approval and program approval
