Faculty

Accomplishments 2008

The Office of Research and External

Support (ORES) is a unit within the Office of Academic Affairs (OAA) created to serve the scholarly and creative activities of faculty, students, and staff. Our mission is to facilitate the procurement of external support through research grants, contracts, and technical assistance agreements; to administer internal support for research; and to document and publicize the scholarly achievements of members of the IPFW community.

The Office of Academic Affairs is pleased to present ***Faculty Accomplishments*** for 2008. *Faculty Accomplishments* provides a comprehensive listing of the scholarly and creative activities of the faculty conducted during the 2008 calendar year. It is a small way for IPFW to recognize, celebrate, and thank our faculty for their endeavors.

The Office of Research and External Support compiled this report from data provided by faculty in their annual reports of productivity through the new iBIDx scholarly works database [<http://ibidx.ipfw.edu/>]. Citations contained herein have been reviewed carefully and every effort has been made to include all work published and produced at IPFW during 2008, as contained in iBIDx.

We congratulate the faculty for their success and encourage their continuing efforts to position IPFW at the heart of the intellectual life of northeast Indiana.
