IPFW Graduate Research Assistantships

The Office of Graduate Studies and the Office of Research and External Support are pleased to announce two Graduate Research Assistantships. The purpose of the awards is to support IPFW strategic initiatives and to further graduate student research goals. The OGS Research Assistantship and the ORES Research Assistantship will be awarded competitively to graduate students who have demonstrated excellent potential for pursuing research. Faculty or departments should submit the application on behalf of the student (see below) which demonstrates:

- § Significant involvement by the student in a specific research program
- § Potential for publication or presentation involving the student
- § Potential impact of the research project
- § Applicants for the ORES Research Assistantship should also demonstrate the potential for external funding.
- § Applicants for the OGS Research Assistantship should also demonstrate the potential for significant community or regional impact.

The awards will provide one-year funding for two .50 FTE Graduate Research Assistants. Standard Purdue Graduate Assistant benefits and enrollment requirements will apply.

Although multiple applications can be submitted from a single department, no more than one award will be granted within a department.

A letter of support from the department chair or unit head and a copy of the sponsoring faculty member's curriculum vitae should be attached.

Submit all materials to:
Douglas Townsend
Office of Graduate Studies
KT 176

Application deadline is March 15, 2010

Awards for 2010-2011 will be announced by March 26, 2010

For additional information contact Doug Townsend at 481-6114 or townsend@ipfw.edu
