

Call for Papers and Tutorials

Fort Wayne Wireless Summer School, June 16-17, 2010

The IPFW Wireless Technology Center will host the 2010 Wireless Summer School at IPFW on June 16-17, 2010. There will be presentations and tutorials from university and industry researchers in the area of wireless for government and military applications. Prospective authors are invited to submit abstracts. Topics of interest include:

Cognitive Radios and Networks
DSP Algorithms
MIMO
Reconfigurable Hardware for Wireless Systems
RF Systems and Architectures
Security
Sensors
Software-Defined Radio Technology
Tactical Radio Systems
Wireless Middleware and the Software Communications Architecture
Wireless Networks
Wireless Standards

Submit all abstracts to Dr. Todor Cooklev, Summer School General Chair, by e-mail to cooklevt@ipfw.edu by January 20, 2010. Summer School information will be posted on the web site www.ipfw.edu/fwwireless as plans are finalized. Additional questions can be directed to the conference coordinator.
