

## **Call for Papers and Tutorials**

### **Fort Wayne Wireless Summer School, June 15-16, 2011**

The IPFW Wireless Technology Center will host the 2011 Wireless Summer School at IPFW on June 15-16, 2011. There will be presentations and tutorials from university and industry researchers in the area of wireless for government and military applications. Prospective authors are invited to submit abstracts. Topics of interest include:

**Software Communications Architecture**  
**Tactical Radio Systems**  
**Cognitive Radios and Networks**  
**DSP Algorithms**  
**Reconfigurable Hardware for Wireless Systems**  
**RF Systems and Architectures**  
**Security**  
**Software-Defined Radio Technology**  
**Wireless Middleware**  
**Testbeds and Development Platforms**  
**Wireless Standards**

Submit all abstracts to Dr. Todor Cooklev, Summer School General Chair, by e-mail to [cooklevt@ipfw.edu](mailto:cooklevt@ipfw.edu) by January 20, 2011. Summer School information will be posted on the web site [www.ipfw.edu/fwwireless](http://www.ipfw.edu/fwwireless) as plans are finalized. Additional questions can be directed to the conference coordinator.
