

1. On the device, tap the **Settings** icon.
2. Tap **Wi-Fi**. Make sure Wi-Fi is turned **ON**.
3. Under **Choose a Network...**
 - a. For Faculty or Staff: tap **IPFW Faculty Staff**.

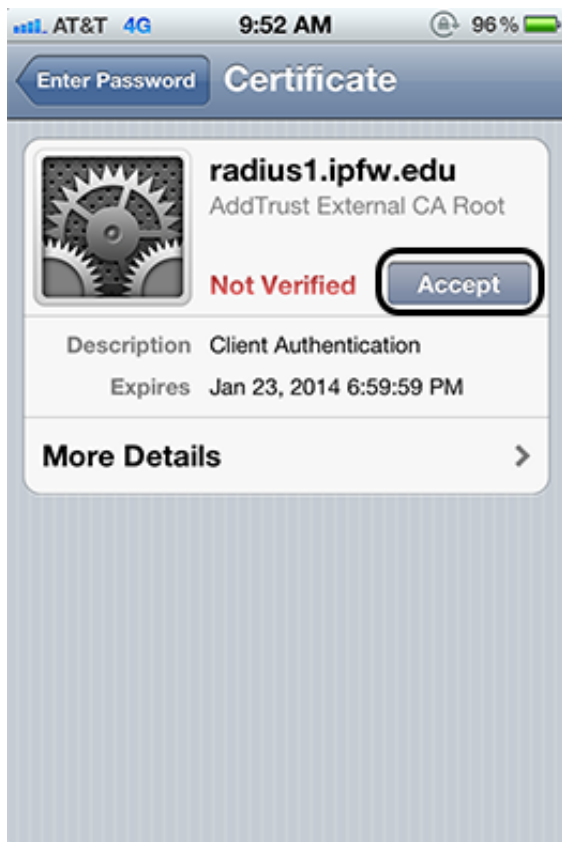

- b. For Students: tap **IPFW Student**.

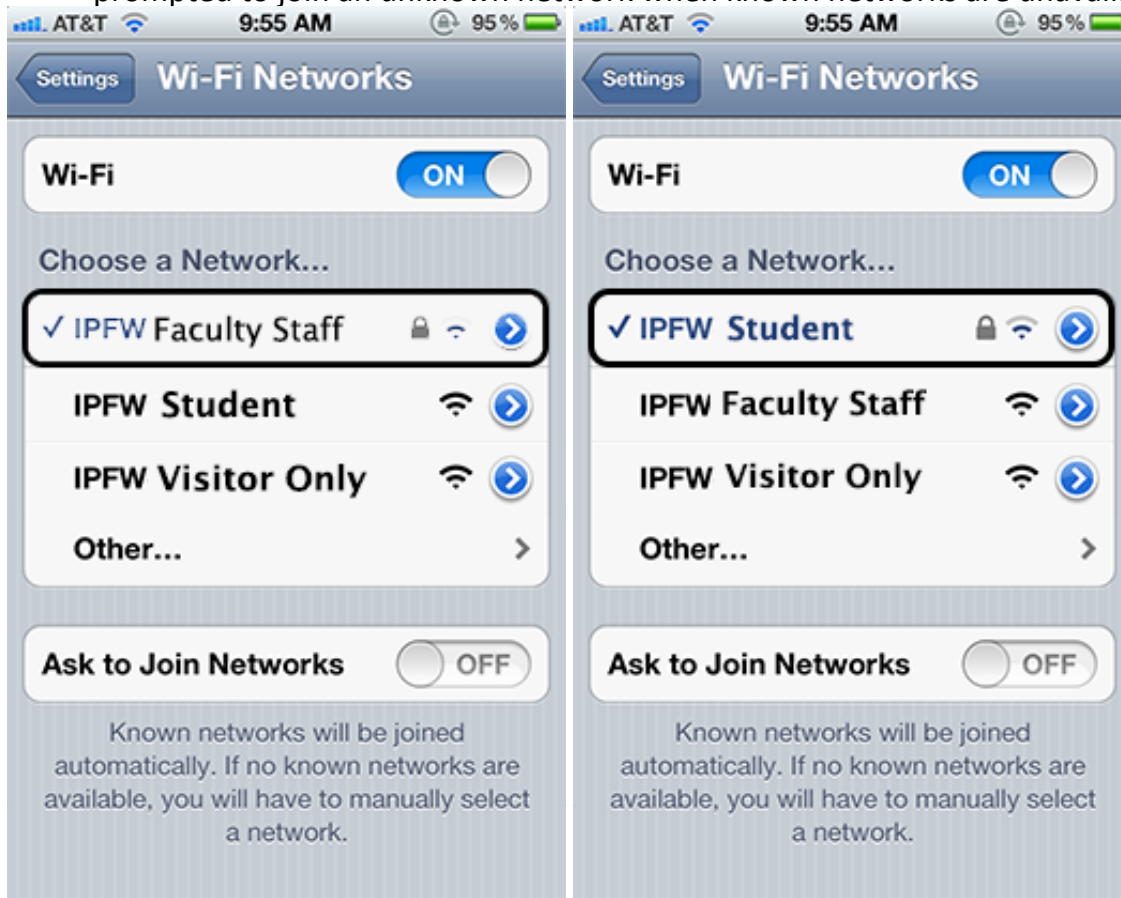

4. Under **Enter Password** enter your IPFW credentials:
 - a. **Username:** your IPFW username.
 - b. **Password:** your IPFW password.
 - i. **Note:** When you change your IPFW password, you will need to update it here.
5. Tap **Join**

6. On the **Certificate** page as shown below, tap **Accept**.

7. You are now back to the **Wi-Fi Networks** page, where you can see a check mark in front of **IPFW Faculty Staff** or **IPFW Student** and the fan shaped signal strength symbol with solid lines, which indicates that the IPFW wireless connection is now established.
- Note:** Known networks will join automatically. Turn **Ask to Join Networks** ON, to be prompted to join an unknown network when known networks are unavailable.

8. On the **Settings** page, you should see **IPFW Faculty Staff** or **IPFW Student** next to **Wi-Fi**.
