Reappointment Review:
Timeline and Guidelines for Librarians

This document provides a year-by-year reappointment checklist to complement librarian promotion and tenure criteria. The intent is to assist probationary library faculty and their supervisors in documenting progress toward meeting the promotion and tenure criteria, as reported in the annual reappointment reviews.

1. Librarians normally receive their reappointment reviews and notification of reappointment or nonreappointment in:
   • February of year 1 (3 months’ notice)
   • November of year 2 (6 months’ notice) and May of year 2 (one year’s notice)
   • May of year 3 and each subsequent year (one year’s notice)

   **Due dates** for librarians to submit information to their supervisors will vary depending on the year of the appointment. Normally 3-4 months lead time is required.

2. Librarian response to review:
   • Signature indicates that the librarian has read the review;
   • Initials next to tenure review date indicate that the librarian agrees with the date;
   • Librarians are entitled to request that errors of fact be corrected;
   • Librarians are entitled to attach a response if they disagree with the content of the review.

   The guidelines represent minimum levels of acceptable progress toward tenure and promotion to associate librarian. The following principles apply:
   • These guidelines must be interpreted in light of the standards and criteria for tenure and promotion for IPFW librarians, described in the Indiana University Library Handbook, relevant IPFW Senate documents, and the IU Academic Handbook;
   • The library director has primary responsibility for explaining the library’s expectations to pre-tenure librarians and for ensuring that the librarians receive appropriate mentoring assistance;
   • The expectations should be explained as part of the hiring process and reinforced yearly;
   • The director (and mentors) must make clear to librarians the level of performance/productivity needed to document excellence in performance and satisfactory progress in professional development/research/creative endeavor, and service;
   • The annual reappointment letter and the annual review must address each area to enable librarians to understand clearly their progress toward promotion and tenure;
   • The librarian’s annual review must be consistent with the recommendations in the reappointment letter;
   • If a librarian has not documented satisfactory progress according to library standards and P&T criteria but is nevertheless recommended for reappointment, there must be a convincing justification for granting an exception.

4. Nonreappointment. Unsatisfactory performance or progress is grounds for nonreappointment at any point, beginning in year one.

5. Continued Professional Growth. The campus criteria for promotion state: a promotion to Associate Professor is based upon actual performance and the potential for continued professional growth (SD 88-25). Thus, the minimum levels of achievement specified in this document must not be viewed as an end point, but as a milestone on the path toward Librarian rank.
